

RACE RIOTS CONTINUE AT THE NATIONAL CAPITAL

Troops Patrol Streets But Clashes Between Whites and Blacks Are Frequent—Two Men of Home Guards Slain—Many Arrests Made—Sale of Firearms Prohibited

WASHINGTON, July 22.—Race hatred in the national capital, engendered by attacks on white workers by negroes and fanned by three successive nights of rioting, found expression again tonight in clashes between whites and blacks. A home defense guard was shot and killed, a second guard fatally wounded and another white man slashed severely by a razor wielded by a negro. All of the negro assailants escaped.

The outbreak, however, was sporadic and confined to a single vicinity near the center of the black district of the northwest section. This was due in the opinion of the authorities to the extraordinary precautions taken to prevent formation of mobs and to a rain which began early in the evening.

Troops Patrol Streets
Approximately 1,500 troops—cavalry, infantry, marines and sailors—patrolled the streets and the reserve for possible outbreaks, supplementing regular and volunteer police. Detachments of marines from Quantico, Va., and regulars under command of Major General William G. Haan, from Camp Meade, arrived early in the evening and took up positions in various parts of the city on the outskirts.

Tonight's casualties brought the number resulting from the rioting, which began Saturday night to seven persons dead, eleven believed to be fatally wounded, and scores injured, more or less seriously.

The only fatal outbreak occurred tonight up to midnight resulting from the stopping of a negro by Isaac Halbfinger, a home defense guard, who drew a gun from his pocket and shot the guard through the heart. Another home guard like Halbfinger, armed only with a riot stick ran to his companion's assistance and also was shot. He died later. The negro escaped.

Used Razors.
Two negroes with razors set upon a white man in the northwest section of the city as he was leaving his home and before he could escape slashed him severely.

Negroes in several parts of the city are said to have fired on passing whites but in no other instances was anyone killed or injured. Scores of negroes were arrested tonight, charged with carrying firearms with which they have been stocking up for several days.

Washington, July 22.—With five persons dead, eleven possibly dying and scores injured in the battles on the streets here during the last three nights every precaution short of martial law was taken tonight by police and military provost guards to prevent a recurrence of rioting that came as an outgrowth of numerous assaults on white women and other recent acts of violence by negroes.

There were no disorders during the day but at night fall police and troops augmented by additional detachments of regulars from Camp Meade and marines from Quantico, Va., took up their stations in grim preparation for what the hours of darkness might bring.

Do Not Seek Martial Law.
A statement issued by the government authorities denied that the situation had been out of hand at anytime last night when riot calls were sounding from half a dozen places at a time. The authorities also decided not to ask that martial law be declared, altho resolutions introduced in the house during the day urged that the president be requested to take that action.

President Wilson took cognizance of the situation late today when he called Secretary Baker to the white house for a conference on steps that might be taken by the military in cooperation with the civil authorities to prevent recurrence of the outbreaks. The president was understood to be greatly concerned over the events of the last three nights in the capital.

After the conference Secretary Baker announced that the troops ordered from Camp Meade constituted a very large number and that Major General William Haan would be in command. Secretary Daniels said a substantial force of marines had been ordered in for night patrol duty. Cavalry again played a part in the police work, holding lines about the congested Negro sections to prevent mob attacks by either blacks or whites. Police and soldiers again struggled to keep the downtown thoroughfares clear of crowds.

The scattered nature of the attacks thru the three nights of growing disorder Washington has experienced made the situation difficult. While rioting was at its worst, downtown panic-stricken negroes fired indiscriminately from the barricaded doors or windows of their homes.

Want Congressional Inquiry.

The resolution introduced today ranged from that by Representative Clark, Democrat, Florida, charging that the district government had "utterly failed" to put a stop to the crime wave that has swept the city for a month and calling for congressional investigation to those of Representative Emerson, Republican, Ohio and Vaile Republican, Colorado, demanding that martial law be declared. Representative Emerson's resolution declared the situation was a "national scandal" and called for protection of citizens, "irrespective of color," while Representative Vaile declared the "dignity and honor of the United States required a martial law enforcement of order."

Representative Hill, Republican, New York, introduced a bill to regulate the sale of firearms in the district. In the absence of any such law the district commissioners today induced hardware dealers and others to stop the sale of weapons. At least 500 revolvers were said to have been sold in a single day during the disturbances.

Steps to curb the "terror cars," thru requiring special tags for operation after dark also were discussed but no action taken.

Even while the rioting was at its height early today reports of an attack upon a white woman came. Frightened away once her assailant had seized her as she left her house.

Police would not make public their plans for the night.

2500 PRISONERS GO OUT ON STRIKE

LEAVENWORTH, Kan., July 22.—Twenty-five hundred military prisoners in the disciplinary barracks at this federal prison here today went on strike today and have repeatedly resisted attempts of the guards to force them to work. Just after noon Col. Frederick Rice in command of the barracks, received a committee of 12 prisoners, who asked that the men be given shorter hours and more to eat.

When the men were ordered from their cells today part of them refused and guards attempted to force the men from the cells, but were beaten back.

The twelve prisoners who were given a hearing before Colonel Rice were largely foreign born radicals, prison officials said. They were appointed at the secret meeting held Saturday afternoon. "Four hours is long enough for men who work in the sun," was one of the contentions. Colonel Rice is said to have told the men that he would take the matter under consideration. It was said here that he will comply with the men's demands in Washington.

PUT DOWN GERMAN STRIKE PROMPTLY

COBLENZ, July 22.—By the Associated Press.—American military police armed with machine guns and sawed-off shot guns, put down a strike of German workmen yesterday in less than two hours after their presence in the district.

The strike, aggregating 800 Germans, was in Bendorf-on-Rhine. It was called in conjunction with the general strike in Berlin and other parts of Germany in spite of warning issued from American army headquarters.

When word reached Coblenz that the men had struck forty military policemen under command of Commander William DeWurst of New York City rushed to Bendorf in motor trucks. The soldiers took up positions in various parts of the town. Almost as soon as the machine guns were in position the strike leaders sent word to Captain DeWurst that the strike was called off.

MAY COMPROMISE SHANTUNG PROBLEM.

Paris, July 22.—(By the Associated Press.)—Informal conversations on possible compromise which would solve the Shantung problem constantly are taking place. The opinion prevails in conference circles that some arrangement probably will be reached by which the gentlemen's agreement formulated between Japan and the other great powers that Japan shall return Shantung to China will be made public.

While this agreement was not formally prepared and signed by the great powers it is known that notes were made but that the Chinese delegates were never shown any sort of written document and consequently refused to sign the treaty. They said verbal statements were too vague to insure them against permanent

Men From China Give Light On Shantung Affair

WASHINGTON, July 22.—Dr. Chao-Chu Wu, one of the Chinese delegates to the peace conference arrived in Washington today to discuss the Shantung settlement with senators and officials. Referring to the Shantung question to the league of nations immediately upon its formation, Dr. Wu paid a tribute to the American mission to the peace conference declaring that the Chinese delegation deeply appreciated the work the mission had done on behalf of China.

"China," said Dr. Wu, "will not sign the peace treaty because she wants to be free to take whatever action may be necessary in the future. The league of nations undoubtedly will offer the best avenue to approach the situation."

Japan's promises in regard to Shantung were described by Dr. Wu as being "empty" of any real meaning.

Manchuria Cited.

"Japan promises to restore political rights but retain economic rights," he said. "In China that means nothing. Look at South Manchuria. There the Japanese have only economic rights but everybody knows the Japanese are in complete control economically, politically and every other way. It is true that the Japanese expressed their willingness to give up a large part of the 190 square miles in Kiao Chiau but they made sure that they retained the Sing Tau with its docks and fortifications. The rest of the ground in Kiao Chiau was no use to them. The best thing for it is a bathing beach."

"This is China's case in brief. Japan has something to which she is not entitled to and the possession is bound to result in difficulties."

T. Hsu and H. K. Kung, other Chinese delegates to the peace conference who have been here several days were presented to Acting Secretary Phillips at the state department today by Counselor Kwai of the Chinese legation.

China's purpose, the delegates declared in a statement tonight is to secure some modification of the German peace treaty that will prevent the retention of Shantung by Japan.

TELEGRAPH BRIEF

WASHINGTON.—President Wilson's recommendation that the American legation at Brussels, Belgium, be raised to the rank of embassy was approved unanimously today by the senate foreign relations committee.

QUINCY.—Wales R. McCormick, 87 years old, oldest past grand chancellor of the Knights of Pythias in Illinois, and former personal friend of Mark Twain (Samuel Clemens), died in his home here tonight.

Mr. McCormick and Mark Twain were printer's devils together in Hannibal, Mo., when boys and were afterwards lifelong personal friends.

ROCKFORD.—Major General Leonard B. Wood, commander central department United States army has accepted an invitation to address the tri-state medical convention here in September. Franklin K. Lane, secretary of the interior, has also been invited to address the meeting.

LONDON.—A wireless dispatch received from Moscow dated Tuesday says a Bolshevik wireless message received there asserts that Ukrainian red troops have captured Konstantinograd, forty miles southeast of Poltava, and that the Poles occupied Tarnopol Monday.

WASHINGTON.—Deportation of 513 enemy aliens for violations of various war statutes is proposed in a bill unanimously reported today by the house immigration committee. The aliens are now interned at Fort Oglethorpe, Ga., and Fort Douglas, Utah. They would be permitted hearings by the department of justice before deportation.

ARRESTED ON FORGERY CHARGE

Quincy, Ill., July 22.—May Powell, was arrested today by Sheriff Simmons on request of the Illinois Bankers Association to face a charge of passing forged checks. The Union National Bank of Macomb, Ill., issued a warrant for her arrest. Complaints of banks at Galesburg, Clinton and Springfield, Ill., and Hannibal, Mo., also have been made. The young woman claims to be under 18 years old and denies any knowledge of the forgeries. A search of her room, according to the authorities, disclosed accounts with the banks in the above mentioned towns.

DOCK GATEMEN STRIKE

Liverpool, July 22.—Virtually all the liners due to sail from Liverpool today were unable to leave the dock piers, because of a strike of the dock gatemen, in sympathy with the men engaged on the Coadges who are out. By the end of the week it is expected the 30,000 dockers in Liverpool

REPARATIONS PLAN OF WILSON IS DISAPPROVED

Negative Vote Returned by Foreign Relations Body

WASHINGTON, July 22.—An emphatic negative was returned by the senate foreign relations committee today to President Wilson's request that it approve provisional appointment of an American representative on the international reparations commission without awaiting ratification of the peace treaty.

While the president was renewing his talks with Republican senators at the white house and the senate was beginning another day of speechmaking on the treaty, the committee adopted a resolution declaring that no power exists to execute provisions of the treaty in advance of its ratification. This was interpreted not only as refusing assent to the appointment but as declaring the president would exceed his authority should he act independently. What the president might do in view of the committee action had not been revealed tonight, but most of his advisers predicted there would be no appointment for the present.

Divide on Party Lines.

In making his request the president had declared it essential to American business interests that the nation be represented on the commission which will have charge of the entire reparations program to be demanded of Germany. The resolution was presented by Senator Knox, Republican, Pennsylvania and was submitted by an eight to seven vote after expressing no opinion on the president's power to act in making the substitution of the committee divided along party lines except that Senator McCumber, Republican, North Dakota, voted with the Democrats in the negative.

Later, in the senate, Senator Moses, of New Hampshire, a Republican member of the committee, pointed out in address opposing the treaty, that the reparations commission would continue until 1951 and would exercise drastic powers. In that connection Chairman Lodge suggested that its powers even might extend to effecting acts of war against Germany but which Germany agreed before but should not be so considered. Senator Moses declared a study of the treaty would entirely refute the claim that the league of nations is indispensable to carry out pacification of Europe, most of the responsibility having been lodged rather in the big five powers.

In a speech supporting the league Senator McNary, Republican, Oregon, said he would oppose amendments which would send the covenant back for renegotiation but he could see no objection to explanatory reservations designed to clarify its provisions. He asserted that article ten must be retained as "the pillar of the league."

The league also was supported by Senators Johnson, South Dakota and Backham, Kentucky, both Democrats, the former declaring his only objection was that the covenant did not go far enough in forcing maintenance of peace and the latter urging that it at least must be given a trial and could be perfected later.

President Consults Senators

The Republicans who saw President Wilson during the day were Senators Edge, New Jersey, Calder, New York and Cummins, Iowa. The conferences are understood to have followed the general lines of those of last week, the president answering many questions about the Versailles negotiations, especially with regard to article ten and Shantung.

Senator Calder asked the president what would be his attitude toward the suggestion that the United States limit its obligations under article ten to 1921, and the president is understood to have replied that such a course would not be in keeping with the nation's duty in the re-establishment of peace.

MADE HIGH RECORD

Monticello, Ill., July 22.—Mark Arie of Thomasboro, Ill., won the registered shoot here today by breaking 147 out of 150 day targets. His brother, Nick Arie of Texas, was second with 146. Homer Clark of Alton, Ill., a professional, also scored 147. The Arie brothers will represent their various states in the Grand American Handicap next month.

French Deputies Discuss General Policies In Force

PARIS, July 22.—(Havas).—Premier Clemenceau's fight for a vote of confidence opened this afternoon in the chamber of deputies with a statement by Deputy Francois-Fournier, who discussed the general policies of the government.

M. Clemenceau and all the ministers were on the government bench. The chamber was crowded.

The Economic Situation.

M. Francois-Fournier, opening the debate recalled the meeting on Friday when the vote on the food policy showed the government to have a minority. He said M. Boret, food minister who resigned was abandoned by his colleagues who left him to struggle alone but that it was the government's economic policy that led to M. Boret's resignation. He said the economic situation was serious and that the country considers the government's announcement program to be insufficient. After criticizing in detail the economic policy of the government, Mr. Francois-Fournier took up the foreign policy. He advocated a more intimate alliance with Italy and concluded by asking the chamber to say if it endorsed the government's errors which he declared compromised the fruits of victory.

Outlined Policy.

M. Joseph J. B. E. Nolens, the new food minister in reply, outlined the government's economic policy. He told of measures taken to increase the supply of wheat and sugar and asserted the government could not be taxed with lack of foresight. In conclusion he said he would oppose food speculators and would prosecute all offenders.

M. Clementel, minister of commerce, emphasized the necessity of maintaining control of wheat and sugar through the world and announced that the allied governments had decided to organize conferences in which neutral nations should take part to reach conclusion on the critical economic situation through the world and to submit these findings to all governments.

HOPE TO AVERT CHICAGO CAR STRIKE

CHICAGO, July 22.—Mediation of the state public utilities commission continued today in the effort to avert the strike of street car employees with the traction company officials before the body.

Leonard A. Busby, president of the Chicago surface lines was the spokesman of the companies, and said plainly that no wage increases could be granted without an increase in fares.

Mr. Busby's contention was the same as made before the commission some time ago in an unsuccessful effort to obtain an increase. At that time the commission held the traction companies were over capitalized and that the income was sufficient for a fair profit. In a statement today, Thomas D. Emery, chairman of the commission which is hearing the claims of both sides behind closed doors said the commission could raise fares without a public hearing but added that the commission is now mediating at direction of Governor Lowden and will make its report to him.

PRAIRIE FIRES AT CAMP GRANT CHECKED

CAMP GRANT, Ill., July 22.—Prairie fires which swept thru dried grass on government leased land half a mile from Meridian road in Camp Grant, threatening to destroy several big farm houses, barns and barracks, were extinguished last night only after a hard struggle.

Soldiers fought the flames with wet burlap, while steamers from the camp fire department poured water into the blaze. Major General George Bell, Jr., camp commander, personally directed the fire fighting for more than two hours. Several acres of meadow land was damaged and some hay stacks lost.

RELIEVED OF COMMAND

Camp Grant, Ill., July 22.—Major H. G. Brannen, camp supply officer and Captain David Parry, camp recruiting officer, were today relieved of their commands in the process of turning Camp Grant over to the regular army. Major Brannen, who entered the army from civil life, and expects to be discharged soon, is succeeded by Lieut. Col. Kinsey J. Hampton of the central department, Chicago. Major Leroy H. Watson, formerly of 51st infantry, becomes the camp recruiting officer. Captain Parry will remain on duty here.

WOULD FIX BLAME IN CHICAGO'S BLIMP DISASTER

Coroner's Jury is Following Out Four Theories in Inquiry

BULLETIN.

CHICAGO, July 22.—A grand jury investigation of the fire and explosion that destroyed the Goodyear Tire & Rubber company's dirigible airship which fell in flames yesterday plunging thru the roof of the Ligon Trust & Savings Bank, killing twelve persons and injuring 28 others yesterday will be made, according to information at the criminal court building today. Prosecution is certain according to Assistant State's Attorney John A. Lowry.

CHICAGO, July 22.—Only theories as to the cause of the explosion and destruction by fire of the dirigible machine resulting in twelve deaths and injury to twenty-eight other persons yesterday were elicited at the first session of the coroner's inquiry today. The case of the disaster seemed as far from disclosure as at the moment when flame spouted along the gas bag as it soared above Chicago's skyscrapers before plunging down thru the roof of a great bank, spreading fatal flames among bookkeepers, clerks and stenographers preparing to end their day's work.

Grim authorities, however,

were apparently determined to place responsibility on some one. Assistant State's Attorney James Lowry in charge of interrogation of witnesses for the state, declared prosecution was certain to follow the inquiry, probably on grounds of criminal negligence and carelessness. At least four theories for the start of the fire were heard today:

Four Theories of Fire.

Pilot John Boettner, who has been held in custody, told the state's attorney that spontaneous combustion probably was the cause.

W. C. Young, chief of the aeronautical force of the Goodyear Tire & Rubber Company, owner of the dirigible, suggested burning oil from the motor cylinders.

Lieutenant Thomas Atkinson, purchasing agent for the motor transport corps, U. S. A. was inclined to believe a leaky valve was responsible and that static electricity caused combustion.

Montford Morrison, a member of the coroner's jury and a technical expert who examined the broken motors suggested that the found all exhausts open and that sparks therefrom may have ignited the gas bag.

Assistant State's Attorney Lowry asked the chief of police to take into custody two officials of the local office of the Goodyear company for questioning. Their names were not divulged. Seventeen persons, most of them mechanics, of the company's forces, were questioned last night and today and summoned for the inquest.

The first session of the coroner's jury—on which state and federal officials are waiting before taking action looking toward prosecution—was marked by the refusal of Pilot Boettner and his chief, Mr. Young, to testify. Their refusal was on the advice of counsel representing the company. While local authorities asserted responsibility for the act was to be fixed on some one evidence was presented to show the company had been negligent.

Lieutenant Atkinson Testifies.

Lieutenant Atkinson testified that the Goodyear company's balloons bore an excellent reputation in the army. The lieutenant who witnessed the accident from an automobile said: "The hydrogen escaping from a leaky valve and mixing with the air, was probably ignited by static electricity in the air. I do not believe it was possible for sparks from the exhaust to ignite the bag."

The lieutenant testified that he never had heard of rotary engines used in dirigibles.

"I understand this was in the nature of an experiment. From the experience the pilot had heard with the blimp, they apparently were working all right," he added.

As to the rotary motors, however, Major Clarence Maranville, chief of the army aircraft force at Akron, Ohio, field, said last night he had lent them to the Goodyear company. He said he understood all necessary precautions had been taken. He also said he did not believe static electricity had caused the fire.

While the coroner's double jury composed of six business men and six testimony the corporation counsel's office was engaged in drafting an ordinance regulating flying over the city. It has been general advocated that flying over the downtown section or any congested district be prohibited. City officials, including the council's aviation commission, desire to see aerial advancements, but seek to institute such regulation as will prevent injury or death to innocent bystanders, such as the bank employees in case of an accident in the air.

The twelfth victim of the

Recites Mexican Situation To House Members

WASHINGTON, July 22.—Altho about fifty American citizens have been killed or outraged in Mexico since 1917, not a single arrest or conviction is known to have resulted. Henry P. Fletcher, United States ambassador to Mexico, today told the house rules committee in a hearing on the Gould resolution proposing appointment of a congressional committee to investigate relations between the two countries. The ambassador also laid before the committee a report compiled by the state department in response to a senate resolution showing that since the close of the Diaz regime, about 250 attacks of a serious nature have been made on American citizens in Mexico.

Relations between the two countries, Mr. Fletcher said, have improved during the last three years. He added that there was a wonderful submission to the Carranza rule in all the sections which the government controls. Altho declining to express an opinion as to the policy either past or future of this country towards Mexico the ambassador in effect opposed suggestion advanced by members of the committee looking to withdrawal by the United States of recognition of the Carranza government. Such a step, he said, would only increase the existing unfriendly feeling of Mexicans towards Americans and would not unless accompanied by other action in the way of assistance bring about the establishment of a more stable government in Mexico but would add to the difficulties of that country.

No Strong Revolutionists.

At present Mr. Fletcher said, there were no revolutionary leaders in Mexico with sufficient following to overthrow the existing government and set up a stable one.

"Would the permission of this government to all Mexicans to secure arms and ammunition furnish these anti-Carranza leaders aid?" asked Chairman Campbell.

"That would have the effect of increasing the turmoil in Mexico," replied the ambassador.

"Whether it would ultimately result in a government more stable than this one, more able to discharge its international obligations, or not I am not prepared to say."

Ambassador Fletcher said he had noticed no special anti-American sentiment or discrimination against nationals of this country in favor of those of other nations. Mexican newspapers, however, during the war he said were very hostile towards the United States.

Another hearing will be held at which Mr. John W. Correll, of Oklahoma, whose husband was recently murdered near Tampico, and a number of former American residents of Mexico will appear.

FIRST CARGO FROM CHICAGO OVERSEAS

Chicago, July 22.—A cablegram received here today announced the safe arrival at Liverpool yesterday of the Lake Grand, a steel vessel built here and the shipping board's first vessel carrying a cargo from Chicago overseas by way of the Great Lakes, the St. Lawrence river and the Atlantic. Officials of the Great Lakes-St. Lawrence Tidewater association are planning heavy grain shipments on this route this fall and the Chicago Board of Trade and other organizations have been interested.

CLEMENCEAU IS SUSTAINED

Paris, July 22.—(By The Associated Press.)—The chamber of deputies gave a vote of confidence in the cabinet of M. Clemenceau this afternoon by a vote of 272 against 181.

Calamity was Milton G. Norton, a photographer for the Chicago Herald and Examiner, who died today. His parachute ignited as he leaped from the machine's gondola and he fell in the street. As death approached he murmured that he hoped his camera and plates had not been damaged. Not all of the victims of the tragedy were out of danger hospital advisers said. The coroner's inquiry will be resumed tomorrow morning.

No Liability Precedent.

The dirigible was declared to be a sister ship of the A-4 the army ship which recently flew from Akron to Langley Field, Va. The blimp was planned for a package carrying service between Akron and Cleveland, it was said. The question of civil liability is arousing interest among legal and insurance experts. No precedent exists, it was said and even prosecution for manslaughter as a result of the accident may have to be based on old English law.

Out of the great mound of debris taken from the Illinois Trust & Savings Bank last night after the Goodyear Dirigible airship had fallen in flames and killed or burned to death nine of the bank's employees, were taken \$200,000 in Liberty Bonds, checks and currency today. And from the same blackened heap, which "white wings" sent to the city had trucked away during the night there were fished forth a battered watch and a diamond-encrusted watch that belonged to Miss Irene Mills, a bank stenographer, who had been the only support of a widowed mother.

HOUSE PASSED A DRASTIC DRY BILL YESTERDAY

Just One Hundred Opposed to Measure on Final Vote

Washington, July 22.—By a vote of nearly three to one, the house, weary of talk on prohibition today passed a bill for its enforcement, with provisions so drastic as to bring from the men who framed it the prediction that it would forever suppress the liquor traffic on American soil.

Glad Contest Is Over.

Exactly one hundred members—52 Democrats and 48 Republicans—refused to support it. Against the even hundred the prohibitionists putting up a solid front to the very last polled 287 votes and just as the result was announced, a little girl in the gallery took out a flag and waved it. It was not a signal for that but the house broke into applause the galleries, only half filled, meanwhile looked on in silence.

A broad smile spread over the faces of the prohibition leaders, for their work in the house was ended and the measure was ready for the senate where many of its restrictions may be modified or stricken out. The cloak room rumor persisted that all of this legislative effort might end on the shoal of a presidential veto, altho the general view was that it would be signed as passed.

Before the house put the bill on its passage one final but feeble hand was reached forth to strike it down and put in its place a briefer and more liberal measure. This took the form of a three-paragraph bill by Representative Igoe, Democrat, Missouri, introduced some days ago and offered today in the form of a motion to recommit, which meant its substitution for the general enforcement measure, if the house saw fit.

Igoe's Motion Defeated.

But the house did not. Mr. Igoe's motion was defeated 255 to 136, and this vote analyzed meant that at least 36 members who favored a more liberal bill took the more drastic one later when there was no other choice.

There were no unexpected reversals in the individual vote. Representative Hunter, Republican, New York, who voted as a member of the judiciary committee to report out the bill was recorded against it, while Representative Classon, Republican, Wisconsin who signed the minority report was recorded for it. Representative Pou, Democrat, North Carolina, an ardent prohibitionist voted against the bill after having pointed out that a law so severe as not to permit a farmers' wife to make a bottle of blackberry wine for her own use, never could be enforced.

WHEAT FOES WILL NOT BECOME WIDESPREAD

WASHINGTON, July 22.—Indications are that the two dread foreign foes of wheat, flag-smut and take-all will not become widespread in the United States. The United States department of agriculture announced today that two states where these diseases appeared, Indiana and Illinois, had taken steps which would prevent the spread of the diseases from the infected fields and which would wipe out in a few years the infection in fields where it exists. All the infected wheat in both states is under control and will be destroyed before any use whatever is made of it, the department has been advised. All straw and stubble are to be burned, threshing machines are to be thoroughly disinfected, and no wheat is to be grown in infected areas for several years.

DECIDE NOT TO INDICT

Chicago, July 22.—The grand jury decided today not to vote indictments for the killing of three workmen in strike riots at the plant of the Corn Products Refining company at Argo, Ill., two weeks ago. Thirty witnesses, some of whom accused the company's guards of firing the fatal shots, were heard. Many of the workers who struck for a closed shop, are back at work, but union officials claim that several hundred still are on strike.

AN AUDIT PROPOSED.

One well known citizen who favors a bond issue as being the only means whereby the city can pay its debts, also suggests that it is asking a good deal for citizens to be called upon to approve a bond issue for the payment of all the city's listed obligations without any special investigation as to the correctness of the claims. This citizen believes that other citizens can be found who will raise a fund sufficient to pay

for some general audit of the city's books in order to ascertain the exact amount of the city's lawful debts. No doubt the council would be glad to avail itself of such an audit and it might proceed while the preliminary steps were being taken for a bond issue.

AND STILL THEY TRAVEL

People complain, and justly, of the mounting cost of living—that every necessary that they buy now costs so much more than it did in days gone by. Nevertheless board any passenger train, on any road in any direction and you will find that passenger traffic is exceptionally heavy. Many trains are so crowded these days that it is almost impossible to secure a coach seat, and sleeper reservations must be made days in advance. This condition prevails notwithstanding the greatly increased cost of travel. This condition and others which prevail has lead a local philosopher to say, and truthfully, that "The higher the price the more people seem to buy, and the more willing they are to spend their money."

THE HALF HOLIDAY PLAN.

Springfield is taking on Chicago manners in the matter of Saturday closing. Recently the banks

of that city announced that they would close hereafter at noon on Saturday for the rest of the summer and like action has been taken by insurance agencies and in other offices. Business and professional men are finding that they accomplish just as much and have the same degree of prosperity if they take some recreation themselves and give a like opportunity to their employees.

DIFFERING VIEW POINTS.

No wonder the public is sometimes confused and does not know exactly which story to give the greater credence. Only a few days ago the federal trade board issued a long statement warning that the packers are about to take control of most of the necessities of life. Now comes the announcement of a new organization thru which the packers are expected to operate with the government in bringing about certain desired conditions, and the further announcement that the packers are taking control of the wholesale grocery business in order to reduce the profits of middlemen and to bring the consumer into closer touch with the producer.

THE MAIN QUESTIONS

The statements by local people with reference to the city's financial condition are interesting and worth while. It is noticeable, however, that instead of sticking to the financial question that many citizens are bringing up other issues interesting but not directly connected with the subject in hand. The queries which naturally come from an understanding of the city's financial condition are: how can Jacksonville meet its floating debt and make some provision for future progress.

IN THESE MODERN DAYS.

The terrible accident which befell workers in the Illinois Trust and Savings Bank in Chicago Monday when the wreckage of a giant dirigible fell upon them, enveloping them in flames, brings forcibly to mind pictures and visions of what the future may hold for the average dweller on this globe. The development of

aircraft undoubtedly increases our hazards here, as the insurance man would say. It brings greater possibilities into play for making our residence here a bit briefer, even tho a trifle more exciting.

From the insurance company's standpoint it may develop in a number of ways. Certain it is that some action should be taken by municipal governments to prohibit the experimenting of the trying out of air craft over the business and residential districts. It takes a tragedy such as that enacted in Chicago to bring action on these new problems. Until the people are awakened by some catastrophe they remain uninterested in such regulation.

A NECESSARY PRECEDENT.

(From the New York Commercial)

Times of depression experienced by this country have found an abundance of manufactured goods on hand, this condition operating against rapid absorption of idle labor by manufacturers. The general fact here stated is the basis form which the American Exchange National Bank draws an interesting and encouraging conclusion. It points out that slow-down of retailers to buy and the reluctance of manufacturers to enter the market for raw materials or to manufacture goods against the early appearance of demand establish the very situation which is a necessary preliminary to industrial prosperity—that is there is an abundance of raw material, but not of finished goods.

There are many obvious reasons for the lack of manufactured goods spoken of by the bank. It is perhaps not generally realized, however, to what extent we have been reducing our supply of finished articles through export business. The National City Bank of New York has compiled figures showing that the value of manufactures exported in December, 1918, and January and February of this year totaled \$799,000,000. For December, 1913, and January and February of 1914 the total was \$257,000,000. High values account for a substantial part of the gain, but the increase in actual volume was at least double.

Rippling Rhymes By Walt Mason

Seasonable Song.

I like to talk of Christmas time, along in mid-July; I like to speak of cold and rime, snow falling from the sky; I like to tell of Santa Claus, the dearest fable that ever was, the most alluring guy. I seem to see the crowded stores, where eager shoppers swarm, and though outside as tempest roars in there it's bright and warm; and I behold the weary clerks who cuss old Santa and his works and clamor for reform. And I forget the summer heat, the weather that's a crime, while dreaming of the crowded street at merry Christmas time; I see the wreaths of evergreen, with holly berries strewn between, and hear the glad bells chime. The stormy clouds by winds are rolled across the wintry sky; and tingling shoppers cuss the cold and wish it were July; "Ah, me," they sigh, "how fine 'would be to sit beneath a steaming tree, and simmer, bake and fry!" I see the children with their sleds upon the gleaming snow; and soon, they divers little beds in ecstasy they'll go, to dream of Kringle and his pack, of reindeer on their shining track, fine presents to bestow. And dreaming thus of Christmas day, the anguish in me dies; if dreams will drive one's grief away, I hold that dreams are wise; and I look blandly at the sun, and smile a few, and take a gun, and shoot a dozen fies.

ADVISED OF ARRIVAL OF NEW GRANDSON

Mr. and Mrs. W. P. Smith of 872 North Prairie street have been advised of the arrival of a son at the home of their son, Rev. Harry Lee Smith, of Paoingfu, China. Rev. Mr. Smith has been engaged in missionary work in China for the past three years. He and his wife have many friends in this city and county who will be interested in the news of this recent arrival in their home.

Stewart Sparger was a business visitor in Pisgah yesterday.

COL. CLIFFORD SOON TO LEAVE ARMY SERVICE

Officer Well Known Locally Expects Discharge This Month—Recently Returned from Special Financial Mission Overseas.

Lieut. Col. Edward Clifford spent a few hours in Jacksonville yesterday with Mrs. Clifford's parents, Mr. and Mrs. Edward C. Lambert. Col. Clifford is expecting release from the army service before the present month closes and will return with his family to Evanston.

It will be remembered that Col. Clifford has been in Washington for nearly two years in army service. After an exceptional record in the management of the first Liberty Loan in the Chicago district, he was taken to Washington to fill a position in the treasury department. A few months later he was commissioned a lieutenant colonel under the quartermaster general and assigned to the department of allotments. His work was to organize that department and it was so done that the 1,500 clerks serving directly with a group of lieutenants and captains co-operated in a very effective way.

In Charge of Big Fund.

Recently Col. Clifford returned from overseas, where he was sent three months ago on a special mission for the treasury department. He was sent across on 24 hours' notice, in charge of a contingent of \$5,000,000 in currency designed for the payment of soldiers leaving French ports for the U. S. When soldiers are paid off in France or Germany they have been paid in the money of the nation where payment is made as a matter of convenience to the soldiers themselves. Then the custom was established of exchanging foreign money for American money or making payment in American money as the soldiers were leaving for home, so that there might be no embarrassment on reaching the home ports.

The millions of currency in this shipment was sent over in \$1, \$5 and \$10 bills. On board the ship the money in boxes was all stored in one room, protected by a steel door and four jacks in relays of our hours each were constantly in guard.

Sought Financial Facts.

Arriving at Brest the money was unloaded and taken in trucks to the U. S. depository. There were some other duties in connection with this special mission and as such as they were concluded Col. Clifford, on instructions from Washington, was occupied for two months in gathering certain financial information from the various army headquarters, both with reference to records and to liquidation. Some of the facts sought were with special reference to bond subscriptions made by soldiers and to pay allotments.

There were so many replacements in American regiments and divisions that it was not at all surprising in some instances here were great discrepancies in records, and it is almost impossible to identify and locate some men.

In this special work Col. Clifford went from headquarters to headquarters to hold conferences with army officers. Announcement of his coming was made in advance and during these conferences he of course came into direct contact with a great number of officers of the American army. Aside from the travel incident to these conferences, Col. Clifford spent two weeks in visiting the battlefields in the war wrecked areas of France and Belgium and also made several visits into Germany. In this way he had abundant opportunity of gaining first hand information of the ruin which war wrought.

Absolute Desolation.

"Over 2,000,000 Americans had active part in the overseas service," said Col. Clifford. "I did the best I could with the duties assigned me and tho I was not in the actual battle line I saw enough during my recent stay in Europe to warrant the statement that no tongue can tell or pen fully portray the extreme devastation that war has wrought in Belgium and in part of France. The desolation there is beyond description and no one can fully realize it until he has beheld the path of ruin with his own eyes. And I saw abundant proof too of the statement that you cannot over-picture the cruelty of the German forces. Their acts were done with deliberate intention; the devastation as the result of the carrying out of a long conceived plan."

"I do not believe that Americans realize the real seriousness of the problems that now confront the allies. I do not believe that they thoroughly understood the tremendous sacrifices made by the people of England. When you consider that at one time England had 7,000,000 men under arms, that 1,000,000 died and that 3,000,000 were wounded, you get some conception of the colossal sacrifice that England made. That sturdy nation with its indomitable will poured out life and treasure into the conflict and during the final months of the war it was done with very slim rations for the people. I tell you Great Britain carried an awful load in this conflict and did it manfully and well. Many and many a year will pass before England can recover from her losses and present conditions be anything like normal."

The American Soldier.

"Then too, I must join with others in paying tribute to the American soldier. In all the weeks of travel, coming constantly into contact with soldiers, I never saw a single American in uniform, officer or private, under the influence of liquor. I found myself watching for cases of this kind and on the lookout for American men in uniform who could be charged with misconduct, and during the three months period I neither saw nor could find a single one. As I said a definite understanding of what the war meant came to me thru these recent months in the performance of duties which brought me into the closest contact with officers and men, and placed me in position to make observations not of a mere casual kind."

"Now that the war is over and the problems of reconstruction are here, it is the duty of America to find some way to give financial aid to the financially worn nations. This must be done not only for the sake of those nations but for American business as well. I believe that our financial men can work out a special system of credit which will fit into these special needs and meet the conditions which the devastation of war has brought about."

Funerals

Funeral services for Mrs. Minnie Lord were held from the undertaking rooms of Williamson & Cody at 2:30 o'clock Tuesday afternoon in charge of the Rev. W. H. Marbach, pastor of State Street Presbyterian church.

Burial was in Jacksonville cemetery, the bearers being Henry Struck, H. C. Clement, James Cridland, H. H. Vasconcellos, H. O. Elliott and A. G. Leedy.

THOMAS LASHMET GOES TO OREGON

Has Position Awaiting Him and Will Reside in That State—Several Real Estate Transfers Recorded.

Winchester, July 22.—Mr. and Mrs. Thomas Lashmet left Tuesday evening for the state of Oregon where they will reside in the future and where Mr. Lashmet has a splendid position awaiting him. Mrs. Jesse Woodall has purchased from Dan T. Smith the property on West Cherry street owned by the late Miss Lide Rhoads.

Corwin Mason who has just returned from overseas service is visiting his grandparents, Mr. and Mrs. Robert Mason. He expects to leave soon for his home in Albert Lea, Minn.

Charles Evans and daughters, Margaret and Catherine of Peoria are visiting at the home of William Evans and family.

Miss Mary Wells left Tuesday for a visit with friends in Pekin.

J. O. Priest of Jacksonville transacted real estate business in Winchester Tuesday. He was accompanied by his wife and daughter.

Miss Winnie Pieper has resigned her position with the Scott County Telephone Exchange and will take a position in the office of Funk & McKee August 1.

Real Estate Transfers.

HENRY FORD QUESTIONED BY OWN ATTORNEY

Manufacturer Pays
Little Attention to
Big Income Ex-
penditures

MOUNT CLEMENS, Mich., July 22.—Henry Ford, after hostile examination for six days today was interrogated by his friend and personal attorney, Alfred Lucking. It was not on Mr. Lucking's program he knew to demand sudden definitions of anarchy, idealism, facts and figures with regard to the army in Porto Rico and Alaska and other embarrassing matters not contained in the Lexicon of mechanics, as Elliott G. Stevenson, senior counsel for the Chicago Daily Tribune, defendant in the \$1,000,000 libel suit did.

Incidentally it became known that Mr. Ford has not ceased his effort to promote world peace. Edward J. Pipp, manager of a news bureau established by Mr.

Is Your Blood Hungry For Iron?

Iron Is The Red Blood Food That Gives
You Strength, Energy and Power—
How To Make The Test That Tells

Actual blood tests show that a tremendous number of people who are weak and ill lack iron in their blood and that they are ill for no other reason than lack of iron. Iron deficiency paralyzes healthy, forceful action, pulls down the whole organism and weakens the entire system. A pale face, a nervous irritable disposition, a lack of strength and endurance and the inability to cope with the strong vigorous folks in the race of life—these are the sort of warning signals that Nature gives when the blood is getting thin, pale, watery and literally starving for want of iron. If you are not sure of your condition, go to your doctor and have him take your blood count and see where you stand or else make the following test yourself: See how long you can work out how far you can walk without becoming tired; next take two five-grain tablets of Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. By enriching the blood and creating new red blood cells, Nuxated Iron strengthens the nerves, rebuilds the weakened tissues and helps to instill renewed energy and power into the whole system.

Unlike the older inorganic iron products Nuxated Iron is easily assimilated, does not injure the teeth, make them black nor upset the stomach. The manufacturers guarantee successful and entirely satisfactory results to every purchaser or they will refund your money. It is dispensed by all good druggists. The Armstrong Drug Stores, Gilbert's Pharmacy.

The Standard Oil Company and the Old Employee

THE Standard Oil Company (Indiana) has emphasized its belief in the rights of its employees to look to the Company as a source of livelihood even after the productive years have passed.

For the protection of those who have grown old in the employ of the Company an annuity has been provided.

This annuity cannot be less than \$300.00 a year, and may be as much as 75 per cent of the average annual remuneration received during the last ten years of service.

This is but one of the factors which have served to promote a bond of sympathy, understanding, and respect between the Company and its employees.

It has been a potent factor in promoting the general efficiency of the Standard Oil Company (Indiana) and has enabled this organization to fulfill its obligation as a public servant in a manner satisfactory to the stockholder, the employee, and the public generally.

Grace Church Sunday School Enjoyed Picnic.

The children of Grace church Sunday school enjoyed a picnic at Nichols Park Tuesday afternoon. About 100 children went to the park on a special car where the afternoon was spent in playing games. A special committee had prepared an excellent supper which saved the annoyance of carrying baskets to the park. This was served late in the afternoon and all returned to their homes tired but happy.

Entertains For
Brother's Birthday.

Mrs. W. T. Hardy entertained a few guests at her home in Yatesville, Monday evening, July 21, in honor of the 54th birthday of her brother, John Seegar, of Decatur. Mr. Seegar is taking his vacation and he with his wife are spending a few days at the pleasant home of his sister. Several games of croquet were played. The ladies playing in opposition to the men, and each time the ladies were victorious. It was also the birthday of Mrs. Seegar, therefore, she too, was regarded a guest of honor. Delicious refreshments were served, and the beautiful birthday cake, which was baked by Mrs. D. N. Harris, was pronounced perfect. Those present were: Mr. and Mrs. John Seegar, S. E. Bingman, Mrs. D. N. Harris and son George, Mrs. Henry Means and granddaughter Louise, Mr. and Mrs. John Baker and son Russell. All departed at a late hour, wishing Mr. Seegar would spend many birthdays in their midst.

Informal Reception
at Koly Home.

Mrs. Lucy D. Koly and Miss Della Dimmitt entertained informally Tuesday night at their home on West College avenue in honor of Mr. and Mrs. James Koly, whose marriage was recently solemnized at Battle Creek, Iowa. Mr. and Mrs. Koly with Mrs. Lucy D. Koly received the guests and the hours from 8 to 10 o'clock were spent in a very happy social way. As indicated, it was an entirely informal company, the guests including only relatives and a limited number of friends. Mr. and Mrs. Koly are to leave today for St. Paul, Minn. After a short stay there they will visit with relatives in North Dakota, before returning to their new home at Battle Creek.

PACIFIC FLEET
MAKES GOOD PROGRESS

Aboard Flagship U. S. S. New Mexico, July 22.—(By wireless to the Associated Press)—The Pacific fleet, on its way to the west coast will make the Windward Passage tonight, swinging southward toward the Admiral Rodman's fleet crossed the trail of Columbus off San Salvador early today. The fleet proceeds in single column formation as it negotiates the passage of the Bahama channels. The weather continues fine and officers and crew are pleased with prospect of a warm welcome when they arrive on the Pacific coast.

More than 500 of the crew on Admiral Rodman's flagship recently declined an opportunity to leave the service in order to make this trip it was said tonight. Admiral Rodman has issued orders to increase the speed of the Pacific fleet so that it will arrive at Panama on the morning of July 25 when the first dreadnaught in the history of the waterway will negotiate the canal.

GIVEN ONE TO FOURTEEN YEARS

Charlotte, Mich., July 22.—One to fourteen years in prison with a recommendation of three years, was the sentence given today to Clayton Barnes, 24, the pseudo soldier-forger, by Judge Chester of Hillsdale.

Barnes was taken into custody at Bloomington, Ill., last Wednesday. He was released on probation after having, it is alleged, buglazed houses near Grand Ledge and was employed by R. L. Wilkinson, but left here two weeks ago after collecting about \$100 on four checks forged with the name of his employer.

FEAR WORLD REVOLUTION.
London, July 22.—Bela Kun, deposed head of Hungarian soviet government is quoted in an interview by the Reuter correspondent at Budapest under date of July 18 as saying that he was convinced a world revolution was inevitable, but in the meantime gary was willing to make peace with what he termed the "capitalistic nations."

MESSANGER ROBBED
Chicago, July 22.—Phillip Fleming, 18 years old, a messenger for the Austin National Bank, was held up this morning by two auto bandits who escaped with \$10,000 cash and \$400 in Liberty bonds.

MET SISTER OF LOCAL MAN IN GERMANY

Anton Graef in Receipt of Letter from Soldier, Billed at Home of Mr. Graef's Sister in Weissenthurm, Germany.

Anton Graef of this city is in receipt of a letter written by Private R. I. Ripple, who describes himself as "one of the A. of O. boys on the Rhine, located in Weissenthurm." The writer, who is altogether unknown to Mr. Graef, states that he is billeted in the home of a family by the name of Zell, and that Mrs. Zell is a sister of Mr. Graef. Mr. Graef is naturally much interested in receiving this letter in which mention is made of his relatives in far-off Germany. The letter reads as follows:

Weissenthurm, July 2.
Dear Sir:
Just a word of explanation. The receiver of this letter knows not the man who is writing it. Also, neither does the writer know to whom he is writing, outside of a name and address on an envelope before him. I know not one iota of you and your affairs except—one other way by which I know you, and which I will bring out later in the letter. Even though I know you not I take for granted that I am writing to a red-blooded American citizen. I myself may not be the adverb but I try at least to be the object in the previous statement. I have just reason for believing the statement, altho the exception I have not yet given.

I, Chaffeur R. I. Ripple, happen to be one of the A. of O. boys on the Rhine, located in Weissenthurm, billeted in a room belonging to people by the name of Zell. The mistress of the home who is your sister, requested me to write to you and tell you they were all O. K. and well.

They have treated me as parents would have treated their own son; doctored up my arm, when I got my inoculation, and gave me tea when I was sick. Oh, I couldn't begin to mention the things they did toward making my stay over here seem shorter, for you know we are all patiently waiting for a sight of the U. S. A. and goodbye to the army. Even though we are not treated as badly as we might be in this man's army still there's nothing like being a free man again.

Well, here's a giving you my best regards for the folks here who cannot yet do so, and hoping that you, by the way this letter starts out, will not think that you are receiving a black hand letter. Of course I cannot blame you if you should. But I know if you knew me you would forgive me for I am "sort of a nut."

Yours truly,
R. I. Ripple.
1st Air Park, A. E. F., A. of O. P. S. My real home is near Johnston, Pa., a berg of about 15,000. If you receive this answer, will you? Some poor nut might not let this go thru, and if I hear from you I will know it did get thru.

MORGAN COUNTY LAND SOLD AT GOOD FIGURE

Tract of 180 Acres Purchased by St. Louis Man at \$35,000—Now Owner to Establish Permanent Home on Recently Acquired Property.

A tract of Morgan county land has just been purchased by a St. Louis man at a price of \$35,000. The tract is 180 acres of grass and timber land located three miles and a half south of the city, and was sold by Messrs. McClellan, Luther and I. D. Shepard to W. S. Dale, a landowner and stock breeder of some prominence both in this state and Missouri. The tract is now without improvements.

It is the intention of the new owner to erect a commodious home and other buildings on the newly acquired tract and take up his permanent home here.

Some of the land just sold is in virgin timber and there are eighty acres which have never been under the plow.

REV. F. B. MADDEN STARTS FOR WISCONSIN VISIT.

Rev. F. B. Madden, pastor of Grace M. E. church left yesterday for a week's vacation visit in Wisconsin. In his absence Rev. J. O. Kirkpatrick will have charge of the weekly prayer service at Grace church this evening. On Sunday morning at Grace church Dr. F. M. Rule will be the speaker, and at this time delegates to the lay electoral conference at Charleston will be elected. This conference will be held next September. In conjunction with the annual Illinois conference. At the election next Sunday J. J. Reeve will serve as judge and E. H. Wilson and W. C. Green as the tellers.

FARM PROPERTY
Today a relative here from Western Nebraska said, "I never could understand why land sells so high in Illinois, until now, it is worth it." WE ALL SAY SO.

How is this? (a) Over the Mound Road west of our own Jacksonville, the most beautiful little city under the stars, we offer a farm of a little over 100 acres in the finest and most fertile agriculture section between the seas, no, no, not too strong, with the home of an old house builder, who built a home that few know how to arrange. Modern house, and all that goes with it, location, beautiful lawns, south front, elegant shade, fruit, large barns, wind mill, well it is all there. Don't shy at the price of \$400 per acre, for it has just really cost it, and we offer it at cost. You seldom see such a home, whether for sale or not.

(b) Just a little farther out we have a short 160 acres of excellent black prairie land, full of tile, hedge all pulled and replaced with woven wire fence. Eight room house, large house, barn, cow barn, hog barn. Three thousand bushel corn crib, with shed. Stock scales, and if there is anything else you need it's there. West of town now, mind you, for \$350.00 per acre.

(c) Let us show you 238 acres, two-thirds fine farming land, one-third blue grass pasture, with branch full of spring water and abundance of shade. There is an eight room house with furnace, water system, bath and lavatory, light plant, built in conveniences and other buildings in proportion. Phone to me for dates to see it. Price \$125.00 per acre.

(d) 330 acres excellent combination farm, one mile from a good town on C. & A. Sixty minutes run by auto from city. Price \$130.00 per acre.

These are some—we have sold the others and we are going to sell these. If you WANT IN GET IN. We're busy. Phone us at our expense.

deer bill:
Aint it funny how some people will lose out—lend me your ear till i whisper it to you. A man took his car into a garage to have it repaired, the mechanic found the float in the vacuum tank leaked and as it was past repairing said a new one was necessary, but they had none in stock. The man went to the boss and told him he had to go to a town 40 miles away the next day and asked him if he could get one in town. the boss said no one in town has them, so the man hired an auto to make his trip, and the following day came into Skinner's Automobile Supply Store and saw not only a float for his vacuum tank, but a new tank if he had needed one. he was some out of humor, bill, but you bet the next time he needs anything he will think of

CITIZENS EXPRESS VIEWS ON CITY'S FINANCIAL PROBLEMS

J. G. Berger.

"I am heartily in accord with the general sentiment expressed in the interviews recently appearing in the Journal. The city's debts should be paid at once and the only feasible and fair plan which appears to me is the bond issue. The addition to our new water project of a filtration plant should not be overlooked at this time. I also am in accord, in a large measure, with the sentiment ex-

pressed by C. N. Priest, that our Central Park should be utilized by the city for the material benefit of the city. The space is badly needed here as trading necessarily is almost entirely restricted to around the square. With the increasing use of autos if we want people to continue to come to Jacksonville to trade we must offer the facilities to be found in other cities easily reached by the means of travel. We at least must provide suitable rest rooms and ample safe parking space."

Wm. Coverly.

"A bond issue, surely, is the proper means. Let us do this and pay up our debts and finish up our water plant properly. If we can do this we will have one of the finest cities in the whole country. I believe that most of the money owed is due here at home and to have it put into circulation will be a big help."

J. H. Mallon.

"Anything that will bring relief I am for. We must have pure water and our debts must be paid if we are to do anything but slide back into the wilderness. If a bond issue will insure the things that we know we ought to have, I am for it."

Dr. H. L. Griswold.

"The thing for us to do now is to arrange for this city to clean up every cent of its scattered indebtedness, and then to operate so that we shall remain out of debt. That can be done and we as citizens should see that it is done. A bond issue will give the necessary timely assistance and I am for that course of procedure. Our water project must be completed, including the installation of filtration facilities."

L. R. Eyre.

"I shall vote for a bond issue if given the opportunity. It seems to be the only way out. The city's debts should be paid and our new water project finished up."

A TEXAS WONDER

For kidney and bladder troubles, gravel, weak and lame back, rheumatism and irregularities of the kidneys and bladder in both men and women. If not sold by your druggist, will be sent by mail on receipt of \$1.25. One small bottle is two months' treatment and often cures. Send for sworn testimonials. Dr. E. W. Hall, 2923 Olive St., St. Louis, Mo. Sold by druggists—Adv.

REAL ESTATE LOANS AND INSURANCE

The largest expert in the history of the government is at hand. Wheat is not as good as expected, but still enough in the country to flood the country with money.

Hogs are highest that was ever known, and with the outlook for prices on commodities to remain about the same for several years to come.

Land is still worth the money and the easiest to pay for any time in the history. Come and see what we have to offer. We can show you all kinds.

right, then we can get somewhere and won't have to be everlastingly apologizing for what we haven't got, but should have."

Dennis Schram.

"Whenever a man gets into such a financial fix that he is owing everybody he has only one salvation, and that is to arrange for sufficient money to clear the slate and give him an opportunity to go ahead. There is only one thing for this city to do and that is to pay its debts. The only way to do that under the circumstances is to issue bonds, all that the law will allow so that there need be no future trouble. There must be no delay in completing the water plant, and filtration facilities must be added. In short, get enough now so that in a year or two this same thing won't have to be gone over and in the end entirely disgust our people. Let our administration give our needs the most careful study, plan for the future, and complete it as far as possible now."

Lloyd S. Hamilton.

"I am for bonds because that manner seems to me to be the fairest and most feasible, but I am for any way that will see this city out of debt and in good running order. We have a city to be proud of and it is a shame to allow our affairs to drag along. If we are prepared to take care of growth and prosperity, it will come unsolicited. I hope that our city administration will give this matter an early and thorough study to ascertain just what is needed, and then give us the chance to vote bonds to cover it. We must have pure water, as the first essential. There are other things needed and it is up to our council to see that every item possible is included and provided for. The council has the public confidence, there is a new spirit of co-operation and harmony among our people, everything looks bright for us, and now is the time to act."

L. P. Hoffman.

"I have been much interested in reading the several interviews that recently have appeared in the Journal with reference to Jacksonville's financial condition and future outlook, and in several I find my sentiments expressed exactly. The city's financial condition is bad, but I do not believe so to the extent that it cannot be readily remedied if a little study and united effort is put to the task. By all means we should arrange at once to see that our debts are paid in full. It is imperative that we have an abundance of pure water, not only because the health of the community depends upon it, but there can be no growth for us as a city."

"I believe that a bond issue offers the only fair and early solution of our difficulties, and I am in favor of such action providing that it is assured the money thus raised will be put to the cleaning up of our entire floating indebtedness, the finishing of our new dam and the installation of a suitable filtration plant. When these things are accomplished there will be no question about the city forging ahead."

Lon Barrow.

"A bond issue by all means and as large a one as can be had so that the city's debts may be paid, our water plant completed, filtration system added, and the city put in shape to receive additions to its industries. These things assured I do not think there is much question about our future."

Dr. A. H. Kennebrew.

"A city is a mirror in which is reflected the sort of homes its citizens have. We love our homes; therefore, we love our city. This is necessary to the making of a beautiful and practical city. Those in whose care we have placed the custodianship of our city must have money and our

confidence in order to carry out our wishes.

"That all may have equal opportunity and equal honor in helping to remove the serious condition now confronting our city, in the form of a heavy debt and many immediate urgent requirements, I am in favor of a bond issue as offering the best solution. This bond issue should be large enough, if it legally may be had, to properly finish and equip our new water plant; and I believe that a new city light and power plant should be planned and erected at this time on the site of the new water plant. This also to include the building of a city ice plant."

"The cost would not be great to build a spur track from one of the railroads entering the city over which to haul in the necessary coal, effecting a great saving to the city and adding greatly to the city's welfare at home and its prestige abroad. The new lake to be provided by the dam now building will, in the winter, furnish an abundance of natural ice and artificial ice could be made from condensation of steam. This ice could be sold direct to the consumers, the city gaining the entire revenue, or it could be jobbed out to retailers the city saying at what price it should be sold to customers. Such a procedure would inspire greater confidence in our administration and in our city, all of which could have but one effect—rapid growth, prosperity and happiness."

"In this connection, and until our city can have full ownership of its utilities, I believe that the utilities operating in our city without franchises should be compelled to secure such franchises and pay a suitable amount to the city therefor. I also believe that the time has come when all wires should be placed underground; that if we believe in growth and have faith in ourselves and in our city, we should have sufficient vision now to plan to that end and be ready to take care of it when it does come. We now are crowded for homes. It will be worse when the new Eli Bridge Company is in operation and more housing facilities must be found. The completion of our new water project will direct attention to use other industries will want to come in; shall we be in position to take care of them? If the advent of numerous automobiles taxes our street capacity now; and if the advent of one new industry will tax our facilities, what will it be when we take on a real advent of prosperity?"

"It is up to us as a people now to act."

J. S. Easley.

"I have been reading the interviews published and am in sympathy with the general sentiment expressed—for a better city. I am in favor of a bond issue at this time and will get out and work for it. Every one of the city's debts should be paid promptly, regardless of how or why they were made. And our new city administration, in which I have the greatest of confidence, should be given sufficient money to get us on our feet and to do the things the people want done. If the taxes are not enough for a time, I am in favor of a sort of occupational tax, and willingly will pay mine. I am willing to help in any way with my money and my time. There is a new spirit of harmony and co-operation abroad."

"The Eli Bridge company will be in operation soon. Let's by all means get our water project finished so that others will come. Confidence and faith in our city, and harmony will work wonders. While at it our new administration should not overlook the fact that certain utilities operating here have no franchises and are paying no tax for the privilege of doing business. I have to pay for the ground I occupy; why not they?"

FROM OVERSEAS.

After many months of overseas service, both of Rev. and Mrs. G. W. Kandle's sons are at the parental home, 214 Bissell street. Lieut. Glen W. Kandle arrived last Sunday morning on a fifteen day leave from Camp Grant. Lieut. Randle has been in command of Salvage Company 313, G. M. C., and was overseas nine months. He expects to receive his discharge from the service at Camp Grant very soon.

Private, 1st Class, Mason M. Randle arrived in Jacksonville Sunday evening after fourteen months of overseas service. He was with the 131st Infantry, medical detachment.

Both boys are looking fine after their strenuous military experience.

GRIGGSVILLE

S. R. Driscoll and family of Springfield are spending several days with home folks here. The Driscoll family and Mrs. G. H. Hardnet and children motored to Mercedos Sunday and were guests of Martin Driscoll Jr. and family.

Miss Marie Buckles has returned from Springfield where she has been in the Prince sanitarium.

Mrs. Helen Cree gave a jam shower for Miss Grace Dallow one afternoon the past week. Miss Dallow will be married to Page Hatch at an early date in August.

BUSY DAYS ON FARMS

"I never was as busy as I am right now and have been for several weeks," said a Morgan county farmer yesterday.

"Never before in my experience on the farm has farm work bunched up as it has this season. Apparently the wheat skipped a week in ripening just to get in the way of corn. Just as the corn was ready to lay by the wheat was ready to cut. If we went into the wheat first, as most of us did, the corn was bigger than it should have been for the last plowing. Before the wheat and corn were out of the way the oats were ready to be cut and the meadows were crying for the mower."

LADIES AID ANNOUNCE PROGRAM FOR PICNIC

Murrayville Society Will Give Twenty-Second Annual Bargo Picnic July 24—Program of Music and Readings and Athletic Events Announced.

Murrayville, July 22.—All arrangements have been completed for the 22nd annual Bargo picnic of the Ladies A. I. society of Murrayville M. E. church, which will be held in the park Thursday, July 24.

Address—Rev. E. L. Fletcher, Jacksonville.

Music—Orchestra.

Reading—Helen James.

Solo—Mrs. Pearl Doyle.

Address—Rev. W. E. Spoons, Jacksonville.

Trombone solo—John Paul McGhee.

Reading—Margaret Spencer.

HAS POSITION IN BUREAU OF WAR RISK INSURANCE

Miss Ruby Cully of 814 West College avenue was yesterday in receipt of a telegram from the bureau of war risk insurance at Washington summoning her to take up the work in the bureau at once. Miss Cully expects to leave tomorrow morning to assume the duties of her new position. She took the civil service examination ten months ago, and since being advised that she had passed has been awaiting a call to take up the duties in this particularly field of endeavor. The position is an excellent one and Miss Cully's friends are confident that she will measure up fully to the duties which will rest upon her.

WILL LEAVE FOR STAY NEAR BOULDER, COLO.

A party consisting of Mrs. G. O. Webster and daughter, Augusta, Miss Eunice Williamson and Miss Emma May Leonard, will leave this morning for a stay of several weeks in Colorado. They will go to Boulder where they will occupy a cottage belonging to Dr. A. L. Adams, Miss Maude Ryan will go with them as far as Kansas City and will then go to Liberty, Mo. for a visit of some weeks with relatives and friends.

MEETING POSTPONED

The regular meeting of the Orleans Country Club which was to have been held Tuesday afternoon with Mrs. J. T. Holmes has been postponed until Wednesday, July 30.

THE CELEBRATION FUND DEFICIT

The call for subscriptions to take care of the deficit in the Home-Coming fund did not meet with an excessively generous response yesterday. In fact, only one contribution was made at the Farrell Bank, and that was for the sum of \$1. It is confidently expected, however, that within the course of the next few days there will be a considerable number of volunteer subscriptions and that at no distant date the entire sum of \$550 needed will be subscribed.

While the majority of the business men of Jacksonville reaped no financial benefit from the celebration, those in certain lines of business with property kept their places of business open and the day's profits must have been greatly swelled because of the celebration plans. The committee

feels that the appeal for funds should strike with special force any of those business men who reaped financial benefit from the celebration.

LAND SALE.

By executor, estate of Mary E. Wood. Auction Saturday, Aug. 2 1919 at 1 o'clock, at court house.

PROBATE COURT.

In the estate of Howard Ogle, the inventory was approved. In the same estate the petition to omit appraisal was allowed and like action taken with reference to petition for private sale of personal property.

In the estate of A. W. Cox, the court appointed H. P. Green as special appraiser to fix the amount of inheritance tax.

BUSY DAYS FOR MORGAN COUNTY ELEVATORS

While Threshing Has Only Just Commenced in County, Elevators Have Plenty of Business—Elevator Man Discusses Wheat and Oat Crop Conditions.

While business is quiet along some lines these days, the statement does not apply to the elevators of Morgan county. The acreage of wheat is large this year and threshing has really only commenced. However, there has been enough grain threshed to make plenty of business for the elevators.

Wheat Acreage.

John W. Clary of the City elevator said yesterday that according to his belief the acreage of wheat this year was 25 per cent greater than in 1918, with about 60 per cent of a crop. This would mean that the total yield is considerably less than last year. Notwithstanding this fact grain is now coming in as rapidly as the elevators thruout the county can take care of it.

F. J. Blackburn of the Blackburn Grain Co. indicted yesterday that there is no let up on receipts and that the capacity of elevators is limited by the number of cars that they can secure. Unfortunately the number of cars is not nearly as large as the grain men would like to see.

During the war time especially box cars were used for all classes of freight and in many instances coal was shipped in them. The result has been that the number of freight cars unfit for grain shipment service is larger than normal. Some other reasons are also assigned by the railroads for the comparatively slow movement of grain. The prices paid by elevators in Morgan county this year seem to be practically uniform. The price for wheat which will grade No. 1 is \$2.11, that is wheat which weighs 60 lbs. or more to the bushel. The price for No. 2 wheat, ranging from 58 to 60 lbs., is \$2.08, while the price for No. 3 wheat, 56 to 58 lbs., is \$2.04. For wheat weighing 55 lbs. or less and which grades No. 4, \$2 is the average price.

Elevator Troubles.

One elevator manager said yesterday that his firm had received an experience which is common to elevator people but which most farmer customers do not readily understand. This firm shipped a car of No. 1 wheat to Chicago, where it was examined and screened, with the result that there was a dockage which amounted to more than 5 cents per bushel. Thus the car which was purchased as No. 1, really sold in the Chicago market at a No. 2 price. This is only one of the various troubles and items of expense which continually pile up for the elevator man.

In talking further about the wheat crop an elevator man said, "There is really nothing surprising about the way wheat is turning out. I would say that the average is from 18 to 25 bushels, while occasionally one hears of a yield less, and occasionally one greater than the figures indicated.

This range is considerably lower than that which prevailed in 1918. I say it is not surprising that the figures are lower when we remember that June was a hot wet month. I believe the crop records will show you that for a good yield of wheat and oats a dry cool June is needed in this locality. Wheat was in flower at a time of unusual heat and as a result damage was done and in many instances one grain formed where otherwise two would have been in the head.

"I believe that the conditions found true of wheat will also obtain with the oat crop, and that the yield will not be up to expectation. The present quotation for oats is 76c, and there is a possibility of a still higher price. The present price for the new crop of oats—and some of the threshing has already been done—is higher than has been paid for old oats. The shortage, however, is sufficient to justify the price."

Hay Shipments.

In addition to receiving wheat and some oats the Blackburn elevator has also been taking in comparatively large consignments of timothy hay. In the past few weeks Mr. Blackburn completed the construction of a large hay barn fronting on East College avenue, and it provides storage space for a considerably large number of shipments of hay. Shipments of hay have been made when cars were available and otherwise the hay received has been placed in storage.

ALL DAY MEETING AT LYNNVILLE

There will be an all-day meeting, with basket dinner, at the Lynnville Methodist church next Sunday. It will be the quarterly meeting occasion, and the pastor will be assisted by several others, both ministers and laymen, among them being Rev. W. R. Leslie, pastor of Centenary M. E. church, Rev. G. W. Handie, pastor of Brooklyn M. E. church and the latter's two sons, Lieuts. Glenn and Mason Handie, just returned from overseas service. A special invitation is extended to soldiers, also to Merritt and Mt. Zion people, and to former members living in Jacksonville and elsewhere.

WILL SPEND PERIOD IN PIKE COUNTY

Mrs. G. M. Blair and son, McKendree Blair, drove to Pike county Sunday and will spend a week or two at their country home just out of Barry. Miss Marian Blair has been in Pike county for the past week and will remain there during the next two

NEED FOR RAIN IS URGENT IN COUNTY

Corn is Badly in Need of Moisture at This Time—Dealers Report Inquiry for Farm Tractors.

Motorists in the county are encountering much dust these days. It is bad everywhere. Even the oiled roads have become so pulverized that the fine oily dirt forms a yellowish film over a machine which has been driven thru it.

The need for rain is urgent and the farmers are quite willing to have the threshing of the wheat and oats interfered with for a few days for the sake of some soaking showers on the tasselling corn which is just now in the formative grain stage and needs the moisture at this particular time perhaps more than at any other time in its growth.

Threshing is very general and advantage will be taken of every day of good weather to rush the work.

The inquiry for farm tractors for the fall plowing of the wheat stubble land is reported by dealers in tractors and there is also a fairly good demand for farm trucks for the handling of grain from the threshing machines to the elevators.

Stubble ground is becoming very hard and the plowing of it at this time is almost impossible for horses. Good rains would soften the ground, but the man with the tractor is preparing to work his "steel mule" regardless of the condition of the ground and the heat of the sun, both of which must be taken into consideration when the working of horses is planned.

PALMYRA RESIDENT PASSED AWAY HERE

J. W. Duncan Died at Maplecrest Sanatorium After Illness of Several Weeks—Funeral Will Be Held at Palmyra.

J. W. Duncan, a prominent grain dealer of Palmyra died at Maplecrest Sanatorium at 5:30 o'clock Tuesday afternoon after an illness of fourteen weeks. Some time ago Mr. Duncan suffered a nervous breakdown and came here for treatment. However, complications set in and in a few days pneumonia developed which was the cause of death.

Deceased was born in Girard 53 years ago. For a number of years he had been a resident of Palmyra where he engaged in the grain business. He was successful in his business and was one of the prominent residents of Macoupin county.

Besides his widow Mr. Duncan is survived by two daughters, Mrs. M. R. Range of this city and Mrs. Eugene Thomas of Palmyra.

Mr. Duncan was a member of the Baptist church. He also was a member of the Masons, Knights of Pythias, Modern Woodmen and Yeoman. He was a man who by his honesty and integrity had attained a splendid name for himself in his home community.

The remains were removed to the undertaking rooms of Williamson & Cody and prepared for burial. They will be taken to Palmyra today where funeral services will be conducted Thursday afternoon at 2 o'clock.

SIMON FINDER DIED AT HANNIBAL

Passed Away Sunday Evening—Funeral Held at Springfield Tuesday.

Simon Finder who has been operating a saloon at Arenzville for the past four years died at Hannibal, Mo., at 5 o'clock Sunday evening of a complication of diseases.

Mr. Finder had been engaged in the saloon business at Pittsfield, New Berlin and other places in this section. It is said that he cleared \$40,000 in his four years at Arenzville and was estimated to be worth about \$50,000.

He leaves one brother residing in New York City and a nephew whose home is in Springfield. The remains were taken to Springfield where funeral services were held from Sayder's undertaking parlors Tuesday morning.

H. C. POND HAS GOOD WHEAT YIELD

Field of 23 Acres Average 28 Bushels to the Acre.

H. C. Pond who resides in Meredosia precinct just east of Meredosia has completed the threshing of a field of wheat that shows a better average than most fields are showing in Morgan county this year.

The field contained 23 acres and the total yield was 644 bushels or an average of 28 bushels to the acre. The wheat was of good quality and will grade high. Mr. Pond is considered one of the successful farmers of Meredosia precinct.

ORDRAIN FOX IS NOW ON THIS SIDE

Mr. and Mrs. P. W. Fox yesterday received a message from their welcome information that he had arrived in New York. Young Fox has been in the service for the past two years, and has been overseas since February, 1918. He was a member of the headquarters company, Fifth division, and was also in charge of the entertainment plans of the division. His relatives and friends here are hoping and expecting that he will receive his discharge at no distant date and that his return to his home will be before a great many days have passed.

VISITED RELATIVES IN ASHLAND

Rev. and Mrs. J. O. Kirkpatrick and daughter, Miss Myra, drove to Ashland Monday and returned yesterday afternoon. They were the guests of Mrs. Kirkpatrick's relatives at the old Bessie home.

FORMER RESIDENT BURIED IN SPRINGFIELD

Charles B. Post, Intimate Friend of Abraham Lincoln, Died in California—Lived Here a Number of Years.

Funeral services for Charles Rollin Post were held at Oak Ridge Chapel in Springfield, Tuesday morning at 11 o'clock, in charge of Dr. Roswell O. Post of Conneaut, Ohio.

The bearers were, John Gardner, Harry L. Ide, John H. Brinkhoff, Lauren Coe, George B. Stadden, Fred B. Dodds, Nelson Allyn and William H. Conkling.

Charles Rollin Post was born in Vermont, and came to this state in 1849, and became a resident of Jacksonville. In 1849 he went with the gold seekers to California, driving an ox team overland.

Upon his return in 1852 he took up his residence in Springfield, where he made his home until 1887, when he went to Fort Worth, Texas, where his three sons were located. A few years later he went to Los Angeles, Calif., which was his place of residence until his death which occurred on July 15.

Mr. Post was the father of the late Charles W. Post, multi-millionaire founder of the Postum Cereal Company at Battle Creek, Mich. He was prominently identified with the business life of Springfield.

While resident there he was engaged in the grain and implement business. He was one of the organizers and founders of First Congregational church in the Capital city. He also was an intimate friend and neighbor of Abraham Lincoln, and was one of the bodyguard which accompanied the remains of the martyred president from Washington to Springfield.

Mr. Post was 93 years of age at the time of death. He leaves one brother, Herbert Post, who is 91 years of age. He also leaves one son, C. L. Post, of Battle Creek, Mich. Mr. Post was an uncle of C. H. Smith of this city. Mr. Smith, accompanied by Mrs. Smith and Lathrop Ward, attended the funeral services in Springfield Tuesday morning.

READY FOR HAY BALING

Wright Bros., of Murrayville, agents for the Fordson tractor, have sold a tractor and hay baler to John and James O'Brien.

PLATFORM DANCE WAS GIVEN AT ALEXANDER

Affair Planned by Three Young Men Proved a Success—Child Welfare Truck Visited Community—Other Notes.

Alexander, July 22.—A large company enjoyed the platform dance which was given in the park here Thursday evening. The arrangements for the affair were made by Martin Hohman, K. V. Beerup and Frank Wiegand and they had overlooked nothing which would add to the success of the evening. The music was furnished by Randall's orchestra of Jacksonville.

Clifford Obermeyer, who was called here by the death of his father, the late C. A. Obermeyer, left Tuesday for his home in Colorado Springs. Fred Obermeyer, a brother of the deceased, also returned to his home in Chicago Tuesday.

Mr. and Mrs. Silas Moats have gone for an extended visit with relatives and friends in Danville and at various points in Iowa. They expect to be gone about two months.

Mrs. John Morgan and daughter Katherine are visiting friends in Springfield.

Yuba Funk of Jacksonville and sister, Mrs. Ernest Strawn Alexander, have gone to Waynesville to visit their brother, Hillard Funk.

The Child Welfare truck visited this community Monday and a large number of children were examined. However, the plans were interfered with by the threatened storm and it was not possible to examine all the children which had been brought for that purpose.

QUARTERLY MEETING AT MERRITT.

Quarterly meeting service will be held at the Merritt Methodist church next Sunday at 8:30 a. m. The District Superintendent Rev. E. L. Fletcher, will preach.

"THE GENTLEMAN FROM INDIANA."

Tuesday morning the Ford was drawn up in front of the Pacific. It was covered with dust, as might now be expected, and filled with children, and there was a man in it. When the newsman could not see any state tag, he asked the traveler where he was from, and learned it was "Terra Hotte"—which, judging from the name, is in Indiana.

Then the inquisitive party asked where the autoist was bound, and found it was Los Angeles. Then, as the scribe only knew one man in "Terra Hotte," he asked the Fordster: "Do you know William J. Button?" "The Druggist?" "Yes, I suppose so."

"Yes."

Well, why did the Jacksonville party ask for William Button? Because he married Minnie Hamilton, cousin of John W. King here.

And the little four year old girl in the auto smiled sweetly at the writer, and he felt it had been a pleasure to meet her—and to know that Mr. Button was still in Terra Haute.

LEAVE FOR MICHIGAN.

Mrs. W. G. Goebel and daughters and Miss Margaret Clampt left last night for a summer vacation visit at Ludington, Mich. They will be joined at Chicago by

REMEMBER BIRTHDAY OF PASTOR AND WIFE

Church Societies Present Them With Cut Glass Dish—Other Virginia News.

Virginia, July 19.—In remembrance of the respective birthdays of Rev. and Mrs. C. E. French which occurred this week, the societies of the Loyal Daughters and the Mission Circle of the Church of Christ presented them with a beautiful cut glass vase.

Miss Lizzie Kruse of this city, went to Jacksonville yesterday to visit her brother, John Kruse, who is a patient at the Passavant Hospital, suffering from injuries which he received in a runaway accident recently at Chandlerville.

Miss Callie McLemore is a new employee at the C. A. Mence's Dry Dry Goods store.

Mrs. Ray Randolph and children left Friday for Denver, Colo., where they will reside. Mr. Randolph has been employed in this city for several months.

Mrs. Roy Conover and Mr. and Mrs. William Markle have received messages that their sons Ruel Wright and Carl Markle have safely arrived in New York.

The ice cream festival held in the Park Saturday evening by the Church Helpers netted that society \$85.

Mr. and Mrs. Claude Darland are the parents of a son, born Tuesday, second child.

Mrs. J. Nieger was pleasantly

surprised at her home Wednesday by members of the S. S. Club. The occasion was Mrs. Nieger's birthday.

Miss Mary Widmayer entertained at a lawn party Wednesday for Miss Edith Randolph, prior to her departure for her new home in Denver.

About 29 members of the Loyal Daughters surprised Mrs. M. F. Dorothy Wednesday evening. A picnic supper was enjoyed by the crowd.

Funeral services over the remains of the late Cornelius C. Woodward who passed away at the family home in this city Wednesday afternoon at 4 o'clock. Rev. Max B. Wiles, pastor of the Presbyterian church, officiating. Burial was in Walnut Ridge cemetery.

The Virginia Community Chautauqua opened today.

The program was as follows: Opening entertainment—Harry Bennett's Scotch entertainer.

Evening. Musical Prelude—Scotch Entertainment.

The annual picnic of the W. C. T. U. will be held July 25 at the home of Mrs. M. C. Petefish. Members are requested to bring a well filled basket and a guest.

Misses Lela and Viola Anderson residing southwest of this city, entertained a party of Virginia friends Thursday evening at their country home. Among those present were:

Misses Mabel and Gertrude Turner, Mabel and Gladys Paschall, Nelle Irvin, Letty Lynn; Messrs. Russel and Stanley Lynn, Carl Aullman, James Looker, Will Long, George Aldridge and Louis Koch.

A delightful two course luncheon was served.

Mrs. Emma Briar of Wary, Colo., is visiting in the city called by the illness of her brother, John Walker.

HISTORY CLASS PLANS WORK FOR YEAR

Will Study Russian Art, Literature and Music Thru Series of Fifteen Meetings.

The History Class has announced its program for the coming season. The year will open with a meeting Sept. 17th and will continue for a series of fifteen meetings, ending April 14th.

The following is the program:

September Seventeenth—Hostess Mrs. W. B. Young. Pushkin, Mrs. H. E. Dobyne.

October First—Hostess, Mrs. H. D. Dobyne. Chekhov, Mrs. J. W. Hubble.

October Fifteenth—Hostess, Mrs. J. W. Hubble. Tolstoy, Miss Barr.

October Twenty-ninth—Hostess Miss Barr. Current Topic, Mrs. G. L. Merrill.

November Twelfth—Hostess Mrs. G. L. Merrill. Gorky, Mrs. E. P. Brockhouse.

November Twenty-sixth—Hostess, Mrs. E. P. Brockhouse. The Russian Theater, Mrs. H. W. King.

December Tenth—Hostess, Mrs. H. W. King. Russian Art, Mrs. P. P. Thompson.

January Seventh—Hostess Mrs. P. P. Thompson. Current Topic, Mrs. J. O. Vosseler.

January Twenty-first—Hostess, Mrs. J. O. Vosseler. Art, Miss Carter.

February Fourth—Hostess Miss Carter. Sculpture and Architecture, Mrs. W. A. Fay.

February Eighteenth—Hostess Mrs. W. A. Fay. Architecture, Mrs. H. H. Bancroft.

March Third—Hostess, Mrs. H. H. Bancroft. Current Topic, Mrs. J. W. Walton.

March Seventeenth—Hostess, Mrs. J. W. Walton. Musicians of Russia, Rubenstein, Paderewsky, Rimsky-Korsakof, Mrs. W. T. Capps.

March Thirty-first—Hostess Mrs. W. T. Capps. The Russian Ballet, Nijinsky, Pavlova, Mrs. Chester Hemphill.

April Fourteenth—Mrs. Chester Hemphill. Current Topic, Mrs. W. B. Young.

FINE SPORT PLANNED FOR MILITIAMEN

Men of Company C Will go on River Fishing Trip Thursday.

Tomorrow should prove a red letter day in the history of the local reserve militia unit, Company C. The officers and members of the organization are going fishing. They are going to take a day off from the hum drum existence of business cares and squads east and squads west and have a real picnic.

Felix E. Farrell, First Lieutenant, is said to be in charge of the program for the day and no details have been left unattended to, to make the event what it should be.

Promptly at one o'clock Thursday afternoon the members of the company will be whisked northward in touring cars and roadsters. Beardstown will be their destination.

Arriving at the river town launches will be in readiness to take the entire party up to the locks. There the members of the company will attempt to hook the wary fish and otherwise disport themselves in an enjoyable way.

A good substantial lunch will be provided and this will be served either at the locks or after the company returns to Beardstown. In the evening the militiamen will return to Jacksonville again via motor.

While it is at times difficult to get all of the members of the company present on drill nights, especially these warm Monday evenings, it is probable that little difficulty will be encountered in securing a full attendance of the unit tomorrow afternoon.

CASTORIA

DAVIS SWITCH

The Unity Workers will meet with Mrs. Glasgow on Thursday, July 24th, at 3 o'clock p. m. A good attendance is earnestly requested. Mrs. Glasgow expects to leave Woodson some time in the near future.

Mrs. John Hoagland and Mrs. J. H. Devore spent Friday with Mrs. John Leach south of the city. Mrs. Charles Summers of Winchester spent Sunday with her sister and family, Mrs. Sam Butler.

Mr. and Mrs. John Kennedy and children spent Saturday with Mrs. Edward O'Meara.

Mrs. John Leach and niece spent some time Saturday afternoon visiting with Grandmother Lewis at the Passavant hospital. Mrs. Lewis seems to be doing satisfactorily.

Mrs. Sam Butler has been on the sick list the past week. At this time she is able to be up and about.

Mrs. Sarah Voorhees has gone to visit her mother and sister in Buffalo, N. Y., and will spend the summer there.

NOTICE

I will not be responsible for any debts other than those contracted by myself.

Raymond Kelly.

ALL EVENTS GO

IN STRAIGHT HEATS

Toledo, Ohio July 21.—All four events at the opening day of the Toledo Grand Circuit Harness Race Meeting at Port Miami Park here today were won in straight heats. Single G. Direct C. Burnett, McGregor the Great and Britton Forbes being winners.

A Talk On HATS

Most every man nowadays, when he buys a hat, buys a good one. But hats become soiled and out of style. If you have one—don't throw it away. Bring it to us. For a comparatively small sum we will

Clean & Reblock

it and make it look as good as when new.

Back From Service

After eighteen months of strenuous work for Uncle Sam, Clarence Wolke at last has been permitted to return home. For the past year the government has relied upon him in the overhauling and repair of Liberty airplane motors. Stationed at the largest motor repair shop in France, Clarence turned out his work with a speed and exactness that surprised the experts.

Although always a mechanic, Clarence has gained such valuable experience abroad that he would not part with it for thousands of dollars. And now that he is back you will have the rare opportunity of his services for your own motor troubles. We are fortunate enough to have him stationed with us and you could not find a more convenient place to leave your car while having it overhauled. No matter what your automobile troubles may be bring them to us and we will guarantee you satisfaction.

New York 100 012 002—6
Chicago 000 000 001—1

Summary.

Three base hits, Lewis, Hannan; stolen bases, Liebold; sacrifice hits, Fawcett, Quinn, Baker; double plays McMullin-Risberg; Pipp-Peckpaug—Pipp; Peckpaug-Pratt-Pipp; left on base, New York, 9; Chicago, 3; bases on balls, off Kerr, 4; struckout, by Kerr, 5; Quinn, 2.

Browns Take Another.

St. Louis, Mo., July 22.—Wellman allowed only five hits and St. Louis took three out of four from Washington by winning today's game 5 to 0. Jacobson started at bat for the locals. He scored two runs and drove in as many more with a double and triple. The game concluded the locals' home stand in which they have won 19 and lost 9.

Score:
Washington 000 000 000—0
St. Louis 200 010 20*—5
Harper and Picinich; Wellman and Severeid.

Exquisite

The woman who desires to be beautiful should be highly critical of all the toilet goods she uses—most particularly of her face powder.

Soul Kiss Face Powder is, in a word, exquisite—of purity, of texture, of perfume—the choice of the discriminating woman.

DETROIT TRIMS RED SOX.

Detroit, Mich., July 22.—Two bases on balls led the way to Detroit's 2 to 1 victory over Boston today. Young scored Detroit's first run in the opening inning on a base on balls, a theft of second and Cobb's single. Cobb was given a base in the sixth, went to third on Veatch's single and scored on Heilmann's sacrifice fly.

Score:
Boston 000 000 010—1
Detroit 100 001 00*—2
Musser and Schang; Leonard and Stange.

Cleveland Takes Third.

Cleveland, July 22.—Cleveland made it three straight from Philadelphia by winning 4 to 3. Elmer Myers pitched against his former teammates and won his own game with a triple in the second inning that drove in two runs. Pinch Hitter Burrus spoiled Philadelphia's chance to tie the count or win the game in the ninth when with the bases filled and two out he worked off first base.

Score:
Philadelphia 100 010 001—3
Cleveland 040 000 00*—4
Naylor and Perkins; McAvoy; Myers, Covelickie and O'Neill.

BY LAKE MATANZAS.

Dedicated to a party recently at that place.

Away to Matanzas, the lake wide and deep,
By whose waters we fish, also eat and sleep.
Could the cottage called Douglas tell all that it knows,
The fun and the frolic, the laughter that rose,
From its walls, and its windows, its roof and its floors,
The eating the sleeping, and goodness! the snores.
Rob says 'twas the doctor, "Doc" says you're another,
I never did snore, you go ask my mother."
"I think it was Edson; "No, sir I don't snore.
'Twas those boys who would breathe a big hole in the floor."
How kind we are cared, by dear Mother Mand,
Whoever would tease her's a great daring fraud;
And right along with her is dear Mrs. S.
All the kind deeds she offers one never can guess.
"Now, doctor, you hear me you do it this way,"
Just see how he trembles: "yes, dear, as you say,
I'll change these old pants, I'll be good, 'deed I will.
And together we'll journey adown the long hill."
Then, Edson, my friend, be it winter or spring,
In fortune or trouble ever just the same thing.
He's a good one to travel, altho people say,
When he starts to Matanzas he loses the way;
And drives the good Ford some five or six miles,
Away from the road and then quietly smiles.
And says he was joking, was hunting a farm,
And enjoying the sunshine altho it was warm.
We've a sweet little angel, to pet and to love.
Mary Hope makes us think of the good ones above.
Such as she the dear Master once held to His breast,
And loved them more dearly than all of the rest.
Last night, it was midnight, I heard a loud click;
What on earth was the matter? it came strong and quick.
It was Rob, he was dreaming, in his hand was a knife.
He was tapping the floor as if for his life.
"No, 4 has gone by No. 6 is most due,
No. 7 is coming, O, what shall we do?"
He jumps for the lever and every one said
Before he awoke he was clear out of bed.
Cavorting like fury, tho to tell the plain truth,
He was just a bit fearful of dear little Ruth,
So sweet and so slender, so small, but O my!
If you think you can fool her, look out for that eye,
'Twill charm the big fish in a trice from the water.
We'll vote her a brick, and of Eve a true daughter.
We're so fond of fish, now observe one and all,
If you want a fine swimmer just ask little Paul.
He will land us a big one, break his back and his pole
And charm everyone by the old swimming hole
For books, we have Edna, so good and so true,
From the college she brings us the way we should do.
If we harker her good ways, we shall make no mistake,
She will show us the pathway we ever should take.
Then Margaret will show everyone how to swim,
We'll watch her from morning 'til daylight is dim.
With a good life preserver she paddles around,
And goes to the middle with one little bound.
Then Elva looks wise, as she frolics about,
If you think you can fool her, just look a bit out.
She is merry and chipper ever jolly and free.
And right on all subjects whatever they be.
Then Samuel is surely first boy of the flock,
One can see he is a chip of the Edison block.
He will be a big trader before he is grown,
Drive hogs, sheep and cattle all over the zone.
Here's a handsome young man with a boil on his chin,
"Now, daddy just wait, you can't put that knife in.
We will just go a fishing, perhaps catch a whale,

I never admit I know how to fail."

you ever are troubled about what to do.
And need a wise counsel, why just call on Hugh.
He will take you a fishing, or swimming, I'm sure.
He is a boy for emergencies up-right and pure.
Of course every household has some little trial.
We think ours is a good one, she is called Helen Dial.
She splashes the water and tickles the boys;
When others are quiet, she makes lots of noise.
But, say she loves papa and mama, I guess,
More dearly than any one else, I confess.
We'll keep her here with us as long as we can
And she'll be brave as a dear little man.
Now to make a full circle, we hasten to bring,
To finish our number a genuine king.
To rule without soldiers, with just a bright smile,
She makes all obey her with such lovely wile.
But what would avail pleasant ways or kind look;
Fishing, boating or swimming, without a good cook?
We would soon all be ready to give up the ghost,
Go into our burrows and die there almost.
But Henry is with us, he is dark, but he's good,
He supplies us thrice daily with choicest of food.
He is always good natured, can boil, fry or bake;
Cook muffins or biscuits, or broil a beefsteak.
We never could camp without Henry along;
He's better than fiddle, piano or song.
So here's to Matanzas, we'll never forget.
The dear happy days we enjoyed here and yet,
We are sad when we think we must leave here for home,
But we'll alwa ys remember in long years to come
The days we've enjoyed by the broad flowing river,
And hope it flows onward and sparkles forever.

We add a small postscript altho it is night,
For you know that this thing must be done Justus Wright,
They are welcome additions, on the porch put a cot,
Soon in soundest of slumber their cares are forgot.
We have fish in good plenty, if we are nearly stuck.

A Resemblance

All storage batteries look very much alike, but from the standpoint of efficiency, long life and faithful service a Prest-O-Lite Battery has a character all its own.

There is a Prest-O-Lite Service Station near you—ours. It is conducted by men who understand the business thoroughly. It is the official representative of the "Oldest Service to Automobile Owners in America." If they can trust us, you can.

Let us explain to you anything you do not understand about your battery. Let us examine it every few weeks and see that it is in satisfactory condition—no matter what the make.

TAKE STRIKE VOTE.
Youngstown, Ohio, July 21.—
Twenty-eight thousand of the
thirty thousand steel workers of
this district who are affiliated
with the American Federation of
Labor, have voted on the propo-
sition of a general strike accord-
ing to union officials, who assert that
a great majority of the men favor
recognition of the union in all
steel plants.
Mr. and Mrs. E. S. Phillips of
Chicago were visiting friends in
the city yesterday.

**BANK HAS SHORTAGE
ARREST CASHIER**
HARRISBURG, Pa., July 21.—
The North Penn Bank of Phila-
delphia, closed by the state bank-
ing department last Friday, after
sound, has a shortage of \$900,000
and Cashier Ralph T. Moyer has
been ordered arrested by Commis-
sioner of Banking John S. Fish-
er. The commissioner said that
his information came from Re-
ceiver James W. MacBurney, in
charge of the bank's affairs by ap-
pointment of a commissioner and
that Moyer had confessed to Mac-
Burney that he had falsified books
by substituting loose leaves in
the ledgers when state bank ex-
aminers appeared. According to
MacBurney, Moyer admitted that
the speculations had been going
on for two years.
State officials said tonight they
were intouch with the receiver of
the bank and that Moyer would
be charged with perjury, embe-
zlement, misappropriation of bank
funds, rehypothecation of securi-
ties, destroying and mutilating
records and accepting deposits
when the bank was insolvent.

COMMUTES SENTENCE.
Springfield, Ill., July 21.—Gov-
ernor Lowden, acting on the re-
commendation of the board of
pardons today commuted to life
imprisonment the sentence of R.
E. John Dixon, condemned to
hang in Lee county August 8 for
the murder of George Bush.
Clemency was given because of
evidence said to show lack of
proper defense. Lee county never
has had a hanging.

7 A DAY FOR 7 DAYS
If Your Nerves Are Shaky Because of
Over-Indulgence in Tobacco or
Alcohol or by Excess of Any Kind,
Bio-Feren is What You Need
Right Away.

Don't grow old before your
time, don't let nervousness wreck
your happiness or chances in life.
The man with string, steady
nerves is full of vigor, energy,
ambition and confidence.

You can have nerves of steel,
firm step, new courage and less
mind by putting your blood and
nerves in first-class shape with
nightly Bio-Feren, a new discov-
ery, inexpensive and efficient.

Men and women who get up so-
ried in the morning that they
have to drag themselves to their
daily labor will in just a few days
rise with clear mind, definite
purpose and loads of ambition.

All you have to do is to take
two Bio-Feren tablets after each
meal and one at bedtime—7 a day
or 7 days—then reduce to one
after each meal until all are gone.

Then if your energy and endur-
ance haven't doubled, if your
mind isn't keener and eyes
brighter, if you don't feel twice
as ambitious as before, any drug-
gist anywhere will return the
purchase price—gladly and freely.

Bio-Feren is without doubt the
greatest remedy for nervous, run-
down, weak, anemic men and
women ever offered and is not
at all expensive. All druggists
in this city and vicinity have an
apply on hand—sell many pack-
ages.

FASCINATING TEETH
How Every Woman Can Quick-
ly Charm Her Friends With
Lovely Teeth,
Clean, White and Brilliant

If you want the cleanest of
white teeth and healthy gums
free from disease, an easy and
quick way to get both is to use
tooth paste so effective and per-
fect that astonishing results usu-
ally come in a week's time.

And the cost is so little. Just
go to any drug or department
store, and get a large tube of
SENRECO TOOTH PASTE for
35 cents.

Not only will it make your
teeth clean and white, but it will
at once remove any filmy coating,
help to check the ravages of
pyorrhea and banish acidity in
the mouth.

It is used by thousands of
dentists and its sale has been re-
markable. When you visit your
dentist, which you should do at
least twice a year, ask him about
SENRECO. It's a most delightful
and refreshing tooth paste.

**HOG PRICES SENDS
CORN MARKET UP**

Market Closes Firm 1 3/4 @ 3 1/2 c
Net Higher With September
\$1.95 and December \$1.65 3/4.

Chicago, July 22.—With hog
prices today equaling the topmost
level ever touched the corn mar-
ket developed a corresponding
strength and closed firm 1 3/4 @
3 1/2 c net higher with September
\$1.94 1/2 @ \$1.95 and December
\$1.65 3/4 @ \$1.65 3/4. Oats gained
1/2 @ 1 3/4 c and provisions 12 @ 60c.
Even if there had been no other
incentive than the action of
hog values buying of corn would
have been greatly stimulated. As
a matter of fact however the bulls
put much stress also on reports
of crop damage said to have al-
ready resulted from prevailing
dry hot weather. Advice from the
southwest told of leaves curling
and of bottoms firing because
of the lack of moisture. Central
Illinois too sent word of the crop
going backward owing to absence
of rain. Despite want of export
demand, oats took an upward
trend with corn. Country offer-
ings were mainly held higher than
the market. Provisions derived
strength from grain and hogs.

H. S. Riddle of Topeka, Kans.,
was calling on local merchants
Tuesday.

**STOCKS RALLY FROM
SEVERE SETBACK**

Recoveries Were Most Pronounced
in Speculative Issues—Unusual
Activity in Rafts.

New York, July 22.—Stocks
rallied substantially today from
their severe setback of the previ-
ous session to the discomfiture
of overconfident short interest.
Recoveries were most pronounced
in speculative issues which sus-
tained greatest losses during yester-
day's heavy selling, notably
oils, motors and kindred shares.
On the rebound some of these
stocks were carried forward 3 to
8 points.

Unusual activity was shown by
the secondary or low grade rails
over half a score of which joined
in the general improvement at
gains of 1 to 2 points, but dividend
paying rails were apathetic tho
decidedly firm.

General news was more encour-
aging and distinctly helpful to
the long account. Call money de-
noted increased ease, metals were
quoted at yet higher prices and
threatened labor troubles in the
steel and iron industry lost some
of their more serious aspects.
Sales amounted to 1,450,000
shares.

Trading in bonds was irregular
on smaller dealings, the liberty
group holding steady and interna-
tionals varying slightly. Total
sales (par value) aggregated
\$12,750,000.

Keep your underarms dry and sweet even in the warmest weather

YOU needn't worry about perspiration! You needn't be afraid that even the warmest weather will make the moisture or odor of perspiration under your arms noticeable to others! You can keep your underarms perfectly dry and sweet in the warmest weather and under the most trying circumstances. Odo-ro-no, a toilet lotion especially prepared for this purpose, will give you complete assurance of a daintiness that you haven't believed possible. It is a physician's formula and harmlessly corrects the excessive perspiration which cannot evaporate as it should.

How to keep your underarms dry

Regularly, two or three times a week, use Odo-ro-no. Pat it under the arms with a piece of cloth, or absorbent cotton. Let it dry. Dust over it some talcum powder. You'll always be free from moisture and odor under your arms! Begin to use Odo-ro-no tonight. Get a bottle from your druggist or toilet goods dealer. THE ODO-RONO COMPANY, 950 Blair Avenue, Cincinnati, O., U. S. A.

Armstrong Drug Store. Coover & Shreve Luly Davis Drug Co. Long's Pharmacy. F. J. Waddell & Co.

Your Protection

You've always had your life covered by insurance.

You've always been protected against loss in case your house or your factory should burn.

But did you ever have a policy before on which the premium is paid and you get the benefit?

It doesn't cost you a cent to have your Willard Battery insured. It takes only a few minutes of your time. Drive your new car around right away, and have the battery registered. That is all there is to it.

If you buy a new Willard Battery for an old car, we will register it for you before we put it on your car. Be sure, when here, to ask about the few simple rules that should be followed to keep your battery in the best condition and lengthen its life.

STRIKE AT WHITE HALL IS AVERTED

Employees of White Hall Sewer Pipe & Stoneware Co. Return to Work—Progress Made in Wheat Threshing—Other News Notes of Interest.

White Hall, Ill., July 22.—A strike of two hundred employees of the White Hall Sewer Pipe & Stoneware company, of which Gustav Bischoff of St. Louis is president, was scheduled for today, but an agreement was reached by which the strike was averted, and the entire force returned to work this morning. The men demanded a wage increase of ten cents per hour, and the proposal of the company to grant five cents was accepted by a majority vote of the men. The increase affects all classes of employees, and has also been made effective at the stoneware plant of A. D. Ruckel & Son.

The week ending today has been ideal for wheat threshing operations, and splendid progress was made with the winter crop. The weather has enabled the threshing to proceed to a point where there will be an inconsiderable amount of wheat stacked, whereas earlier in the harvest it was evident that there would be inadequate facilities that would necessitate considerable stacking. The yield continues to hover around an average of 23 bushels per acre, less if anything, but the quality is holding up good.

No Market For Hard Wheat Straw The farmers do not seem to be able to find a market for the bearded or hard wheat straw, and great quantities will be burned unless buyers come around. The straw from soft wheat is used to a large extent by the local stone-

ware concerns for packing purposes, but the hard straw is not suited to this purpose. The growing of hard wheat has been extensive during the past two years, hard wheat constituting from two-thirds to three-fourths of the wheat grown this year in the heart of Greene county, and this seems to hold good throughout the county on such estimate. Corn continues to come along excellently but another week without rain will begin to show ill effects. Pastures and meadows are showing the need of rain.

Insects have damaged truck crops and vegetables during the past week. The crop of potatoes is showing fair to good.

Thermometer at High Mark Sunday the thermometer once more reached the high mark of the season, 97 degrees. On country roads that have not been oiled autos find difficulty in navigating.

Funeral services for the late Mark Schudde were conducted from the family home six miles south west of White Hall Monday morning at 11 o'clock. The deceased was a prominent farmer of Greene county who met death Saturday afternoon about 2:30 o'clock when in attempting to cross a bridge with a heavy engine, the bridge gave away and Mr. Schudde was pinioned underneath the fire box in the water and mud.

Recent Soldier Arrivals James Egan and Albert Shirley are among the soldier arrivals during the past week. Ward Bridgewater arrived a week ago, and Harold Fair is expected in a few days. Egan re-enlisted, and is on a furlough of thirty days. S. Gropp is expected home from Jacksonville this week, where he has been receiving hospital treatment for several weeks.

The Girl Scouts, under Miss

WAS ON VERGE OF GIVING UP JOB

After 12 Years Suffering Petree Was in Despair—Tanlac Ends Troubles.

"A medicine that will play such a remarkable part in ones life as Tanlac has in mine certainly deserves the highest praise," said Ora E. Petree, of 4335 Kenman Avenue, Chicago, in a conversation with friends at the Guster Hotel in Galesburg, recently. Mr. Petree, who was for fourteen years salesman and district manager for Swift & Company, resigned his position with this company March first, this year, and has since gone into business for himself.

"It was over twelve years ago," he continued, "that I began having indigestion and the trouble soon got to be serious. Nothing seemed to agree with me and I lost weight and strength rapidly. Gas would form on my stomach after eating and keep me in misery for hours. I would often bloat so badly and at these times my heart would palpitate so that it greatly alarmed me. During these attacks I would become so dizzy that I had to be careful to keep from falling. I was falling so fast that I took the matter up with the best specialist we have in Chicago and was advised that I was suffering from nervous indigestion and catarrh of the stomach.

"I got so I could neither eat nor sleep but little, had no energy, and it just seemed that my whole life had been changed completely around. Away back there when I was still on the road selling goods, I can recall how I would give out so easily and my grips felt three times heavier than before. I could not approach a customer with my old time confidence and determination. In other words I didn't have that old time fight in me, which is so necessary in business any more. I felt so miserable that I could hardly get around and everything I did or said was an effort. During my fourteen years as salesman and manager I always took particular notice of the results of my efforts and was not at all surprised when I found my business had fallen off twenty per cent for the year.

"My health had been so poor and I suffered so terribly that it reflected on my business and I was rapidly losing ground. Realizing this I determined to stay with the specialists and get relief if possible, but this hope was never, in any degree, realized. On the other hand I gradually became worse and had about made up my mind to resign my position and go to some distant land in search of relief and health. By this time my suffering was not only terrible, but almost continuous. One day I was speaking with a friend of mine about my condition and incidentally spoke of my intentions of giving up my position, and he insisted on me trying Tanlac. How an advertised medicine could help me when the most skilled treatment had failed was more than I could understand, but my friend being a responsible man and high up in the world, I considered his judgment excellent, so I bought a bottle of Tanlac and started on it at once.

"Well, the results I have gotten from this medicine have been absolutely amazing, not only to me, but also to the company, and even more so to my wife and friends who were best acquainted with my condition. I at once began to sleep soundly, my appetite soon returned and I noticed the pains leaving my stomach. I was not only completely restored to health, but my business picked up more than thirty per cent, which shows what a man loses dragging around trying to work when he's not able. I want to advise every brother salesman to try Tanlac when they have any reason whatever to use any kind of medicine. It can be depended on for results."

Tanlac is sold in Jacksonville by Coover & Shreve; in Meredosia by Mr. R. B. Field; in Murraville by Mr. E. Gilbert; in Waverly by the Wyle Drug Co.—adv.

Vera Evans, are spending the week at Kampsville.

A formal announcement from the St. Louis X-Ray Laboratory contains an item of general local interest. Back in the early nineties there came to town a rather unkempt youth who wished to work his way through the White Hall school. He was honest, a hard worker and a diligent student, and was not long in winning the good wishes and interest of all who came in contact with him. He finished school with oratorical honors, but an interest in chemistry enabled him to secure a place with a St. Louis proprietary drug house, from which he was enabled to pursue a medicine at Washington University, followed by three years of service in the St. Louis city hospital. That youth is Dr. Charles F. Sherwin, M. D., now practicing in St. Louis on his own account, and his service in an advisory capacity are valued highly, and the announcement here referred to speaks highly of Dr. Sherwin who has become a medical advisor with that institution.

The W. C. T. U. was entertained by Mrs. Hattie Binkerton last Friday at a lawn picnic.

Mrs. J. H. Wyatt is with relatives at Lawrence, N. D. The property on the extension to Whiteside Park will be sold at public auction on August 9th.

Residence Is Improved. Extensive improvements are being made on the Isaiah Potts residence property on West Bridgeport street, which was recently purchased by John W. Smith, residing west of Barrow Station. Mr. Smith will occupy the property this fall with his family.

Eight cars of oil have been applied to the streets of the city, and Street Superintendent Vermillion is endeavoring to secure several more cars in order to make the job substantial in all parts of the city.

Recent guests at the home of Albert B. Smith included Mrs. J. J. Besten, Moberly, Mo.; Mrs. Ed Porter, Osceola, Mo.; Mrs. Charles Ballow, Jerseyville; Mr. and Mrs. Earl Smith, Chicago.

Dig Well on Chautauqua Grounds A well is being dug on the chautauqua grounds by Jule Hubbard, who says he has orders to continue downward until an ample supply is assured. Every time a public well is being sunk, interest in oil prospecting is revived, and the chautauqua well is no exception. Mr. Hubbard says he has not the facilities to go down more than 500 or 600 feet, and that to prospect for oil it is necessary to have a standard outfit that will go down 2,000 feet or more. The chautauqua dates are set for August 17 to 24, eight days. The program is now in the hands of the printer, and the attractions are superb.

John Thomas, a young author and horticulturist, is contemplating the purchase of a complete set of meteorological instruments, by which to record weather conditions from day to day as they prevail in his neighborhood, near Patterson, northwest of White Hall. He is the son of George Thomas. The work would be supplemental to that of the co-operative weather bureau station at White Hall, and would be of great value alone for comparative purposes.

RAILROADS AGREE ON FAIR SERVICE.

No Excursions at Rates Less Than Fare and one Third.

At a meeting of the Springfield terminal railroads held in Springfield, it was agreed that a rate of one and a third fare for the round trip to Springfield from all points in Illinois was authorized. The rate will be effective from and including Thursday, Aug. 14 to and including Aug. 25. This is one day prior to the opening of the fair and one day after the close.

The excursion tickets will be honored in all classes of equipment including parlor cars and sleepers. The Wabash will furnish no additional service during the fair but will carry extra equipment on all regular trains.

The Illinois Traction system is in this agreement and is on exactly the same basis as the other railroads. No railroad will during the fair operate an excursion at a less rate than that above named.

The state board of Agriculture which conducts the fair pledges itself to do all the advertising. The board will carry advertising in some 600 daily and weekly newspapers besides posters and bill boards in the cities and dodgers, hand bills and flyers in all railroad stations, hotels and postoffices.

Kellogg's

WON ITS FAVOR THROUGH ITS FLAVOR

More Kellogg's is eaten today than ever before because millions of people know its superior quality and inimitable flavor.

Every grocer everywhere sells Kellogg's everyday to almost everybody.

A FOUR-GENERATION PICTURE

No family who can boast of four generations living should be without a group picture. We invite such fortunate families to make use of the facilities of this studio.

SCENE—a garage; time, midnight. Characters, the dealer and a transient customer limping in with a damaged tire.

CUSTOMER—"Give me a Firestone; I know what it will do and I haven't time to experiment on an unknown tire."

DEALER—"Sure; you want most miles per dollar and I want most friends per mile."

Exit customer, happy and satisfied, with—
